Barriers to Bioweapons Sonia Ben Ouagrham-Gormley, 2014-12-15 In both the popular imagination and among lawmakers and national security experts there exists the belief that with sufficient motivation and material resources states or terrorist groups can produce bioweapons easily cheaply and successfully In *Barriers to Bioweapons* Sonia Ben Ouagrham Gormley challenges this perception by showing that bioweapons development is a difficult protracted and expensive endeavor rarely achieving the expected results whatever the magnitude of investment Her findings are based on extensive interviews she conducted with former U S and Soviet era bioweapons scientists and on careful analysis of archival data and other historical documents related to various state and terrorist bioweapons programs Bioweapons development relies on living organisms that are sensitive to their environment and handling conditions and therefore behave unpredictably These features place a greater premium on specialized knowledge Ben Ouagrham Gormley posits that lack of access to such intellectual capital constitutes the greatest barrier to the making of bioweapons She integrates theories drawn from economics the sociology of

science organization and management with her empirical research The resulting theoretical framework rests on the idea that the pace and success of a bioweapons development program can be measured by its ability to ensure the creation and transfer of scientific and technical knowledge The specific organizational managerial social political and economic conditions necessary for success are difficult to achieve particularly in covert programs where the need to prevent detection imposes managerial and organizational conditions that conflict with knowledge production *Sea Secrets* ,1970 *Dead Men's Secrets* Jonathan Gray,2014-09-08 Archaeologist Jonathan Gray stumbled upon something that shocked him a whole cache of out of place items that should not exist And they weren't just in one place There was a global pattern to them This pattern showed a lost science and technology That's when he knew someone had to speak up This content was of tremendous value MACHINERY Did you know that the Egyptians bored into granite rock with drills that turned 500 times faster than modern power drills ANCIENT AMERICA Did you know that a Chinese mapping survey of North America in 2200 BC described a sunrise over the Grand Canyon black opals and gold nuggets in Nevada and seals frolicking in San Francisco Bay This is the most amazing archaeology book you'll ever see *Dead Men's Secrets* is an assemblage of astonishing discoveries A lost super science emerges from the sea floor jungle and desert sands of our planet with more than 1 000 forgotten secrets It will SHOCK you SEE this world as you've never seen it before DISCOVER answers you never had GAIN a new enjoyment HAVE FACTS at your fingertips to amaze your friends *Secret Journeys of a Lifetime* National Geographic,2011 *Secret Journeys of a Lifetime* presents 500 off the beaten path travel destinations around the world that are notable for their vistas wildlife and historical and cultural significance
