Securities Elizabeth Glass Geltman,1994      **Cases and Materials on the Law of the Sea, Second Edition** Louis B. Sohn,John Noyes,Erik Franckx,Kristen Juras,2014-05-08 A special course adoption price is available for an order of six or more copies from a university bookstore Contact sales us brill com or sales nl brill com to learn more This second edition of Cases and Materials on the Law of the Sea has been updated to address significant developments that have occurred in the law of the sea since the publication of the first edition in 2004 The text compiles cases treaties U N documents commentaries and other teaching materials that systematically present law of the sea topics while placing those issues in the broader context of international law and international legal process The book incorporates relevant historical materials alongside materials addressing more recent topics such as port security the depletion of fish stocks and the operation of new international institutions Extensive notes and discussion questions engage readers and enhance their understanding of the materials      *Security and Environmental Sustainability of Multimodal Transport* Michael Bell,Solmaz Haji Hosseinloo,Urszula Kanturska,2010-06-07 Not until the recent attacks on transport systems has transport security become a focus of public concern and academic research Various aspects of transport security have already been analysed under different agendas Some research was focused on the potential risk to the environment resulting from transport in particular from the transport of hazardous or dangerous goods while other research considered critical elements of transport networks or supply chains as vital lifelines in the case of natural disasters Recently new threats stimulated interest in transport security as a stand alone issue placing it at the forefront of political and academic agendas A NATO Advanced Research Workshop held at Imperial College London in January 2009 brought together those with expertise in the above mentioned fields in order to verify the current state of knowledge in the field and identify promising areas for future work The workshop concentrated on maritime and intermodal transport risk management and long term strategic planning rather than on the details of monitoring or detection techniques This collection of papers emanates largely from that workshop While transport systems are widely recognized as terrorist targets complete protection of these systems is economically and practically infeasible The workshop looked at analytical methods to identify critical points in the transport infrastructure and the prioritization of defensive and mitigating measures given the limited resources available Deficiencies in methods for conducting such an assessment were identified and the need for cost effective mitigation measures was emphasized

California Cases on Security Transactions in Land Richard Callender Maxwell,1984      **Future of the Nuclear Security Environment in 2015** Russian Academy of Sciences,National Academy of Sciences,Policy and Global Affairs,Committee on International Security and Arms Control,Joint Committees on the Future of the Nuclear Security Environment in 2015,2009-02-02 The U S National Academies NAS and the Russian Academy of Sciences RAS building on a foundation of years of interacademy cooperation conducted a joint project to identify U S and Russian views on what the international
