The Geopolitics of Iran Francisco José B. S. Leandro, Carlos Branco, Flavius

Caba-Maria,2021-09-13 This book assesses Iran's role in contemporary geopolitics. In particular it examines three main intertwining circles: Iran's development and political challenges; its relationships with neighbouring countries as well as its relations with the major global powers: China, the European Union, Russia and the United States. With contributions from over 20 authors, the book spans such critical aspects of contemporary geopolitics as modern history, natural resources, the economy, the social-political context and strategic thinking. Particular focus is placed on Iran's relations with its neighbours: Afghanistan, Iraq, Israel, Pakistan and the Persian Gulf States. Furthermore, the book offers both a bilateral and multilateral dimension on how nuclear sanctions imposed on Iran have impacted its strategic planning from the economic and military perspectives.

Beyond Regionalism? Matteo Legrenzi,2016-04-15 Regional cooperation, regionalism and regionalization in the Middle East are usually considered to be weak and rather ceremonial. However, since September 11, 2001, a new regional order is emerging and the impact of geostrategic changes in the international environment has yet to be satisfactorily studied. With older regional organizations suffering from weaknesses, new forms appear to be developing and flourishing due either to European support or growing sub-regional identities. This volume offers refined theoretical models and approaches which are attuned to the new dynamics and contradictions of a wide range of regionalist projects in the contemporary Middle East. Case studies of the most important regional organizations in different policy fields offer comprehensive overviews of the main actors, institutions, historical development and current issues.

Modern Conflict in the Greater Middle East Spencer C. Tucker,2017-04-17 This reference work covers the history of Middle East nations, addressing military, political, diplomatic and ideological trends in each respective country and enabling readers to better understand the factors behind the crises shaping the Middle East today. **Modern Conflict in the Greater Middle East: A Country By Country Guide** is a concise reference for students exploring the importance of each nation-state in the Middle East and their level of involvement in major conflicts in the region. It supplies the broad historical background necessary for readers to understand each country's unique role in the conflicts that have characterized the region since the end of World War I. The book also enables readers to grasp the various motives and ideologies that have shaped each nation's military objectives and to appreciate the political and social climates of each of these countries that propelled them into various wars. The book presents a chapter-by-chapter discussion of the origins and impacts of war on specific Middle Eastern countries, giving readers an in-depth understanding of the global importance of the conflicts within the region. These chapters, along with detailed timelines, sidebars and primary source documents, will help readers grasp the connections between individuals, developments and conflicts in the Middle East and events and developments such as European imperialism, World Wars I and II, U.S. foreign policy during and after the Cold War, the formation of the state of Israel, Arab nationalism, the emergence of the oil industry in the region and the origins of radical Islam.

Territoriality of Radical Islamist Groups Bohumil Doboš,Martin Riegl,Jakub Landovský,2021-05-04 This book examines the issue of territorial control by violent jihadist groups.

using a comparative perspective The book argues that in many parts of the world the connection between a state and the control over territory is not as close as presented by conventional political maps and therefore it is necessary to analyse the territoriality of non state actors as well Based on a variety of case studies the work looks at different levels of connection between the violent Islamist groups and territory dividing them into non territorial semi territorial and territorial groups While the majority of the cases are located in the Middle East Islamic State Al Qaeda Al Qaeda at the Arabian Peninsula Hayat Tahrir al Sham Hamas and Hezbollah the book also draws cases from Africa groups in the western Sahel Al Shabaab and Boko Haram South Asia Taliban and East Asia Abu Sayyaf By providing in depth understanding of their respective approaches to territory the book identifies the specifics of each group s territoriality while also drawing more general conclusions This book will be of much interest to students of terrorism and political violence radical Islam Middle Eastern studies and International Relations in general **Britain and State Formation in Arabia 1962-1971** Clive

Jones, 2018-12-07 Half a century ago Britain abandoned Aden its last colonial outpost in the Arab world as its attempt to establish a new polity foundered amid a rising tide of Arab nationalism tribal infighting and anti colonial sentiment that eventually gave rise to the establishment of South Yemen Yet just over three years later in 1971 a new state the United Arab Emirates emerged in Arabia formed from the old Trucial states over which Britain had long held sway At a time when state failure and fragmentation has become synonymous with much of the Middle East and where the very idea of sovereignty and legitimacy have become contested issues this comparative historical study of the varied British attempts at state creation on the Arabian peninsula offers important insights into the limits of external ambition as well as the possibilities that great power retrenchment offered to the peoples of the region The legacy of British influence in Aden and Abu Dhabi still very much resonates today this volume explains why This book was originally published as a special issue of Middle Eastern Studies **Conflicts in the Middle East since 1945** Peter Hinchcliffe, Beverley Milton-Edwards, 2007-09-12 This third

edition of Conflicts in the Middle East since 1945 analyzes the nature of conflict in the Middle East with its racial ethnic political cultural religious and economic factors Throughout the book Peter Hinchcliffe and Beverley Milton Edwards put the main conflicts into their wider context with thematic debates on issues such as the emergence of radical Islam the resolution of conflicts diplomacy and peace making and the role of the superpowers The book is brought fully up to date with events in the Middle East covering for instance developments in Iraq in 2006 where a democratically elected government is in place but the insurgency show no sign of coming under control The analysis of the Palestinian Israeli conflict is also brought up to the present day to include the election of the Hamas government and the 2006 conflict between Israel and Lebanon s Hizballah Including a newly updated bibliography and maps of the area this is the perfect introduction for all students wishing to understand the complex situation in the Middle East in its historical context *Defending Iran* Gawdat Bahgat, Anoushiravan Ehteshami, 2021-09-23 An authoritative analysis of Iran s defense doctrine and security policies set

The Armies of Ancient Persia Kaveh Farrokh,2014-02-28 Throughout most of the classical period Persia was one of the great superpowers placing a limit on the expansion of Western powers It was the most formidable rival to the Roman empire for centuries until Persia by then under the Sassanians was overwhelmed by the Islamic conquests in the seventh century AD Yet the armies of ancient Persia have received relatively little detailed attention certainly in comparison to those of Rome This work is the first of

three volumes that will form the most comprehensive study of ancient Persian armies available The Sassanians the native Iranian dynasty that ousted their Parthian overlords in AD 226 developed a highly sophisticated army that was able for centuries to hold off all comers They continued the Parthians famous winning combination of swift horse archers with heavily armored cataphract cavalry also making much use of war elephants but Kaveh Farrokh interestingly demonstrates that their oft maligned infantry has been much underestimated The author born in Athens Greece and expert in ancient Persian languages and military history has been researching the military history and technology of Persia for a quarter of a century He draws on the latest research and new archaeological evidence focusing on the organization equipment and tactics of the armies that dominated the ancient Middle East for so long *The Thistle and the Drone* Akbar Ahmed, 2013-03-07 Argues that the campaigns that fall under The War on Terror have exacerbated the already broken relationship between central Islamic governments and the tribal societies within their borders
