Seeing The Text Exegesis For Students Of Greek And Hebrew:

Seeing the Text Mary H. Schertz, Perry B. Yoder, 2001 Seeing the Text integrates language study with theories and methods of interpretation The purpose of the book is to help students increase their facility with the biblical languages while at the same time incorporating exegetical and literary skills and methods The book thus not only provides a wider theoretical and methodological horizon for language study but also builds a solid text based foundation for further biblical studies Because it is increasingly the case that seminarians do not have the opportunity to study both Greek and Hebrew examples in both languages are included whenever possible to create a metalinguistic theoretical understanding The book is therefore designed and suitable for both intermediate Hebrew students and intermediate Greek students Finally the book includes suggestions for using the computer to facilitate language learning and exegetical work in order to help students develop the skills necessary to sustain their language skills with the aid of computer software when they are no longer engaged in formal study For further information about author Mary Schertz click here [Biblical Exegesis, Fourth Edition](#) John H. considering the fortunes of science in each within its specific context Empirical Models for Biblical Criticism Jeffrey H. Tigay, 2005-10-21 Modern critical scholarship has concluded that the books of the Hebrew Bible have not reached us in their original form but are the products of lengthy evolution Many of these books are thought to combine the works of more than one author or age and to have undergone considerable revision Tigay and the other contributors use comparisons of various texts from ancient Mesopotamia and post exilic Israel Such comparisons show that the sort of development of biblical literature that nineteenth century critics were led to postulate from close study of the texts alone is characteristic of many ancient Near Eastern texts Empirical Models for Biblical Criticism is of value to scholars interested in the Old Testament as well as religion theology Jewish studies Near Eastern studies and comparative literature NIVAC Bundle 7: Pauline Epistles Douglas J. Moo, Craig L. Blomberg, Scott J. Hafemann, Scot McKnight, Klyne Snodgrass, Frank S. Thielman, Daniel Garland, Michael W. Holmes, Walter L. Kraus, 2017-04-03 In Jewish Christian and Classical Exegetical Traditions in Jerome's Translation of the Book of Exodus Translation Technique and the Vulgate Matthew Kraus offers a layered understanding of Jerome's translation of biblical narrative poetry and law from Hebrew to Latin Usually seen as a tool for textual criticism when read as a work of literature the Vulgate reflects a Late Antique conception of Hebrew grammar critical use of Greek biblical traditions rabbinic influence Christian interpretation and Classical style and motifs Instead of typically treating the text of the Vulgate and Jerome himself separately Matthew Kraus uncovers Late Antiquity in the many facets of the translator at work grammarian biblical exegete Septuagint scholar Christian intellectual rabbinic correspondent and devotee of Classical literature *Collected Studies on the Septuagint* Jan Joosten, 2012 In this volume Jan Joosten brings together seventeen articles published in journals and collective volumes between 1996 and 2008 with one unpublished essay In these essays he deals mainly with questions of language and interpretation in the earliest Greek translation of the Hebrew Bible Many of Jan Joosten's studies take their point of

departure in one or the other striking features in the language of the Septuagint propose a theory explaining its peculiarity and go on from there to relate the linguistic phenomenon to wider historical exegetical or theological issues Others deal with problems of method in establishing the historical background of the version its relation to the Hebrew source text and its theology Taken as a whole Jan Joosten offers an original contribution to a number of contemporary debates on the Old Greek version Notably in this book he addresses from various perspectives the questions of who the translators were and what they tried to do

Ishodad of Merw's Exegesis of the Psalms 119 and 139-147 Clemens Leonhard, 2001 Ishodad of Merw 9th century like other East Syrian exegetes understands himself as an heir of Theodore of Mopsuestia's died 428 approach to biblical interpretation The study examines this claim in one of the rare cases where the Syriac translation of Theodore's commentary on Ps 119 and 139-147 is extant Ishodad emerges as a competent representative of his scholastic tradition working creatively with his scientific tools Ishodad's commentary shows traces of Theodore's in less than a third of the verses explained This reflects the development of medieval academic exegesis and the changed expectations towards biblical interpretation and its presentation In its highly abbreviated style Ishodad's commentary shows that it was written for a learned audience for whom one could reduce one's explanations to their essential parts The study of Ishodad's commentary provides a glimpse into East Syrian scholarship in Abbasid Mesopotamia as mediating between different exegetical traditions and biblical translations

In the Court of the Gentiles: Narrative, Exemplarity, and Scriptural Adaptation in the Court-Tales of Flavius Josephus David Edwards, 2023-06-05 Edwards explores how Josephus in *Antiquities* adapts the scriptural stories of Joseph and Esther in unexpected ways as models for accounts of more recent Jewish figures Terming this practice subversive adaptation Edwards contextualizes it within Greco-Roman literary culture and employs the concept of discourses of exemplarity to show how Josephus used narratives about past figures to engage Roman elites in moral reflection and pragmatic decision making This book supplies analysis of frequently overlooked accounts as well as Josephus' broader literary strategies and shows how ancient Jews appropriated imperial historiographical conventions and forms of discourse while countering Greco-Roman claims of cultural superiority
