Contemporary Approaches to Commemorative Public Art Brenda Schmahmann, 2025-06-12 In this collection a diverse range of international contributors examine commemorative monuments from the late twentieth and twenty first centuries The book reveals how those monuments enable new perspectives and understanding of histories as well as a heightened involvement of viewers through not simply their subject matter but also most crucially their actual form and design While some contributors explore new approaches to the art of commemoration that artists and designers have deployed in recent monuments others examine how artists have undertaken creative engagements with historical statuary and sites using these interventions to offer critique and commentary Additionally the contributions consider the impact of political change on ways in which an inherited commemorative landscape is interpreted and negotiated Questions considered by the contributions include How might new monuments be shaped and how might they function differently from those of the past Is there a place for portraiture in the contemporary commemorative landscape Should commemorative monuments be envisaged as permanent fixtures or are temporary approaches more viable How effectively have artists disrupted the

meanings of historical monuments and sites through installation performance video and other media How has political change played out at historical sites affecting how commemorative monuments from prior dispensations are understood in the 2020s This collection will be of value to researchers in Art History Visual Studies and Heritage Studies as well as scholars in all disciplines and fields who are interested in public art public memory and the politics of commemoration **General Catalogue of the Public Library of Detroit, Mich** Detroit Public Library,1904 **General Catalogue of the Public Library of Detroit, Mich. Selection of Reports and Papers of the House of Commons ,1836 **Street Art, Public City** Alison Young,2013-11-20 What is street art Who is the street artist Why is street art a crime Since the late 1990s a distinctive cultural practice has emerged in many cities street art involving the placement of uncommissioned artworks in public places Sometimes regarded as a variant of graffiti sometimes called a new art movement its practitioners engage in illicit activities while at the same time the resulting artworks can command high prices at auction and have become collectable aesthetic commodities Such paradoxical responses show that street art challenges conventional understandings of culture law crime and art Street Art Public City Law Crime and the Urban Imagination engages with those paradoxes in order to understand how street art reveals new modes of citizenship in the contemporary city It examines the histories of street art and the motivations of street artists and the experiences both of making street art and looking at street art in public space It considers the ways in which street art has become an integral part of the identity of cities such as London New York Berlin and Melbourne at the same time as street art has become increasingly criminalised It investigates the implications of street art for conceptions of property and authority and suggests that street art and the urban imagination can point us towards a different kind of city the public city Street Art Public City will be of interest to readers concerned with art culture law cities and urban space and also to readers in the fields of legal studies cultural criminology urban geography cultural studies and art more generally
