Santa Fe Elizabeth West, 2012 This question and answer book contains 400 reminders of what is known and what is sometimes forgotten or misunderstood about a city that was founded more than 400 years ago Not a traditional history book this group of questions is presented in an apparently random order and the answers occasionally meander off topic as if part of a casual conversation

Noble Purposes Norman Gross, 2007 Throughout the history of the United States the acts of a few have proved to be turning points in the way our legal system has treated the least of us The nine individuals whose deeds are recounted here have compelling stories and though they remain unknown to the general public their commitment to the rule of law has had a lasting impact on our nation Noble Purposes brings their stories to life It describes the contributions of such individuals as James Alexander the guiding and central force in the colonial era trial of John Peter Zenger which sowed the seeds for the American Revolution and the constitutional guarantee of a free press In the 1870s Hugh Lennox Bond stared down threats as judge in the trials of the South Carolina Ku Klux Klan while Clara Shortridge Foltz overcame tremendous resistance during her fifty year law practice which included advocacy of public defender offices Early last century Louis Marshall paved the way for the rights of minorities in America and abroad while Francis Biddle FDR's attorney general sought to maintain civil liberties during World War II arguing against the internment of Japanese Americans and later serving as the American judge in the Nuremberg trials Edited by legal scholar Norman Gross and written by leading legal historians from around the country the profiles presented in Noble Purposes tell the stories of these and other individuals who stood firmly in support of the rule of law often against great odds
