Lost And Found Pb 2003:

The Happy Mind: Cognitive Contributions to Well-Being Michael D. Robinson, Michael Eid, 2017-06-28 This edited volume focuses on different views of happiness and well being considering constructs like meaning and spirituality in addition to the more standard constructs of positive emotion and life satisfaction A premise of the volume is that being happy consists of more than having the right things happen to us it also depends on how we interpret those events as well as what we are trying to achieve Such considerations suggest that cognitive emotional factors should play a fairly pronounced role in how happy we are The present volume pursues these themes in the context of 25 chapters organized into 5 sections The first section centers on cognitive variables such as attention and executive function in addition to mindfulness The second section considers important sources of positive cognition such as savoring and optimism and the third section focuses on self regulatory contributions to well being Finally social processes are covered in a fourth section and meaning related processes are covered in the fifth What results is a rich and diverse volume centering on the ways in which our minds can help or hinder our aspirations for happiness

Perspectives on Abstract Concepts Marianna Bolognesi, Gerard J. Steen, 2019-06-15 Human language is the most powerful communication system that evolution has produced Within this system we can talk about things we can physically see such as cats and tables but also about more abstract entities such as theories and feelings But how are these abstract concepts grounded in human cognition and represented in the mind How are they constructed in language And how are they used in natural communication settings This book addresses these questions through a collection of studies that relate to various theoretical frameworks ranging from Conceptual Metaphor Theory to Words as Social Tools Contributors investigate how abstract concepts are grounded in

the mind represented in language and used in verbal discourse This richness is matched by a range of methods used throughout the volume from neuroimaging to computational modeling and from behavioral experiments to corpus analyses

Amazonian Dark Earths: Wim Sombroek's Vision William I. Woods,Wenceslau G. Teixeira,Johannes Lehmann,Christoph Steiner,Antoinette M. G. A. WinklerPrins,Lilian Rebellato,2008-11-16 Amazonian soils are almost universally thought of as extremely forbidding However it is now clear that complex societies with large sedentary populations were present for over a millennium before European contact Associated with these are tracts of anomalously fertile dark soils termed terra preta or dark earths These soils are presently an important agricultural resource within Amazonia and provide a model for developing long term future sustainability of food production in tropical environments The late Dutch soil scientist Wim Sombroek 1934 2003 was instrumental in bringing the significance of these soils to the attention of the world over four decades ago Wim saw not only the possibilities of improving the lives of small holders throughout the world with simple carbon based soil technologies but was an early proponent of the positive synergies also achieved in regards to carbon sequestration and global climatic change abatement Wim s vision was to form a multidisciplinary group whose members maintained the ideal of open collaboration toward the attainment of shared goals Always encouraged and often shaped by Wim this free association of international scholars termed the Terra Preta Nova Group came together in 2001 and has flourished This effort has been defined by enormous productivity Wim who is never far from any of our minds and hearts would have loved to share the great experience of seeing the fruits of his vision as demonstrated in this volume

Power, Race, and Justice Theo Gavrielides,2021-09-28 We are living in a world where power abuse has become the new norm as well as the biggest silent driver of persistent inequalities racism and human rights violations The COVID 19 socio economic consequences can only be compared with those that followed World War II As humanity is getting to grips with them this timely book challenges current thinking while creating a much needed normative and practical framework for revealing and challenging the power structures that feed our subconscious feelings of despair and defeatism Structured around the four concepts of power race justice and restorative justice the book uses empirical new data and normative analysis to reconstruct the way we prevent power abuse and harm at the inter personal inter community

and international levels This book offers new lenses which allow us to view power race and justice in a modern reality where communities have been silenced but through restorative justice are gaining voice The book is enriched with case studies written by survivors practitioners and those with direct experiences of power abuse and inequality Through robust research methodologies Gavrielides s new monograph reveals new forms of slavery while creating a new philosophical framework for restorative punishment through the acknowledgement of pain and the use of catharsis for internal transformation and individual empowerment This is a powerful and timely book that generates much needed hope Through a multi disciplinary dialogue that uses philosophy and critical theory social sciences criminology law psychology and human rights the book opens new avenues for practitioners researchers and policy makers internationally
