America charts the sport's meteoric rise and equally meteoric decline against the backdrop of changes in American culture during the last century Gwyneth Anne Thayer takes us from its origins in coursing in England through its postwar heyday and up to its current state of near extinction Her entertaining account offers fresh insight into the development of American sport and leisure the rise of animal advocacy and the unique place that dogs hold in American life Thayer describes greyhound racing's dynamic growth in the 1920s in places like Saint Louis Chicago and New Orleans then explores its phenomenal popularity in Florida where promoters exploited its remote association with the upper class and helped foster a celebrity culture around it By the end of the century media reports of alleged animal cruelty had surfaced as well as competition from other gaming pursuits such as state lotteries and Indian casinos Greyhound racing became so suspect that even Homer Simpson derided it In exploring the socioeconomic political and ideological factors that fueled the rise and fall of dog racing in America Thayer has consulted participants and critics alike in order to present both sides of a contentious debate She examines not only the impact of animal protectionists but also suspected underworld ties longstanding tensions between dogmen and track owners over racing contracts and the evolving relationship between consumerism and dogs She captures the sport's glory days in dozens of photographs that recall its coursing past or show celebrities like Frank Sinatra and Babe Ruth with winning racing hounds Thayer also records the growth of the adoption movement that rescues ex racers from possible euthanasia Today there are fewer than half as many greyhound tracks in half as many states as there were 10 years ago and half of them are in Florida Thayer's in depth meticulously balanced account is an intriguing look at this singular activity and will teach readers as much about American cultural behavior as about racing greyhounds *The Dogs of War* Lisa Rogak, 2011-10-25 The most comprehensive book I have ever read on military dogs it exemplifies the indomitable spirit of the dog ever selfless loyal to a fault Steve Dunno author of *Last Dog on the Hill* An incredible story of the largely unseen but vital role that dogs play in our armed forces Lisa Rogak's *The Dogs of War* is a must read for animal lovers everywhere Military working dogs gained widespread attention after Cairo participated in the SEAL Team 6 mission that led to Osama bin Laden's death Before that few civilians realized that dogs served in combat let alone that they could parachute from thirty thousand feet up *The Dogs of War* reveals the amazing range of military jobs that our four legged soldiers now perform examines the dogs training and equipment and sets the record straight on those rumors of titanium teeth You'll find heartwarming stories of the deep bond that dogs and their handlers share with each other and learn how soldiers and civilians can help the cause by fostering puppies or adopting retirees Mainstream, 1995 *Adventures with Ari* Kathryn Miles, 2009-04-01 Merle's Door was a sensation because Ted Kerasote writes so beautifully about his dog and his dog's love of the land In *Adventures with Ari* Kathryn Miles takes a step back from the wild places Kerasote describes When she adopts Ari an exotic Jindo dog the two of them begin to explore the outdoors together A dog sees the world quite differently from a person For starters he or she is much closer to the ground to what we've been trying to preserve more and more of these

days A dog is the original environmental activist The sights sounds and smells of nature are what make a dog a dog And if you want to learn more about nature try enjoying life like a dog Kathryn Miles sets out to do just that when she becomes determined to let Ari live life on her own terms Once some basic ground rules are set Kathryn takes the leash off her dog and the blinders off her own eyes A new world soon emerges She and Ari explore a backyard landscape of grass mud snow trees and the occasional fox They find the scent of a northern wind the footprints of a startled raccoon and other secrets of the natural world The puppy s free spirited outlook teaches Kathryn to see more when she might otherwise have seen less while adding a certain excitement and clarity of vision Soon Kathryn begins to give up control and know the world as Ari learns it Peppered with factual information about our natural world and the creatures that inhabit it Adventures with Ari makes compelling reading for dog lovers as well as anyone who s been out and about in the woods Like most projects of discovery this process forces Kathryn to uncover much more than the physical it allows important insight to her thoughts and feelings and her relationship with her entire family all thanks to a puppy named Ari *It's a Dog's Life* Susan E. Bryan D. Cummins,2013-11-07 When Homo sapiens sapiens met Canis lupus lupus millennia ago the result was Canis lupus familiaris the domestic dog Since that fateful encounter the dog has become arguably humankind s greatest creation The domestic dog is the most widely distributed species other than ourselves in the world being found virtually wherever people live and is also the most diversified of species with literally hundreds of recognized breeds While we have shaped the dog it too has helped shape human history in innumerable ways Our Debt to the Dog is a critical historical and cross cultural examination through the use of case studies of this most improbable 15 000 year relationship and an exploration of how this relationship shaped the history of the world It is also very much an apology to the dog because over the course of the partnership horrific acts were perpetrated against it intentionally and otherwise Our Debt to the Dog enriches our understanding of the dog and extends our appreciation for the profound complexity of past and present human canine relationships and the dog s contributions to our lives and our world In Dogs We Trust Jacob F. Rivers III,Jeffrey

Makala,2019-05-17 A grand anthology that celebrates the many sterling virtues of the canine species Dogs have lived with humans for thousands of years as working partners By the nineteenth century their role expanded to companions American dog literature reflects this gradual but dramatic shift that continues even today Our household dogs are quite literally closer than ever to us sleeping in our beds getting dressed in Halloween costumes and serving as emotional support companions In

Dogs We Trust is the first comprehensive anthology of American dog literature. It features stories, anecdotes, and poetry that celebrate the many sterling virtues of the canine species. By mining the vast American literary archive of nineteenth and early twentieth century periodicals, Jacob F. Rivers III and Jeffrey Makala reveal the mystique and magic of the human-canine relationship and what they believe is one of the best connections humans have to the mysteries of the natural world. This grand anthology features a rich harvest of fiction and nonfiction in which the canine heroes and heroines think and act in ways that illuminate their unquestioning loyalty and devotion. By taking dog literature seriously, Rivers and Makala believe we can learn more about our animal companions, ourselves, and our national literature. For them, dog literature is American literature; it helps us explore and explain who we are and who we wish to be. *Canines*, Lauryn E. DeGreeff, Craig A. Schultz, 2022-01-30.

Detection canines have been utilized throughout the world for over a century, and while numerous attempts have been made to replicate the canine's ability to detect substances by mechanical means, none has been as successful. The olfactory system is a highly intricate and sophisticated design for chemical sensing, and the olfactory capacity of many animals, including canines, is considered unmatched by machine due to not only their great sensitivity and superior selectivity but also their trainability and mobility. These unique features have led to the use of such animals as whole-animal biosensors. Amplifying the benefits and diminishing the limitations of detection canines, interdisciplinary research is crucial to understanding canine olfaction and detection and enhancing this powerful and complex detector. The past 50 years have produced vast advancements in animal behavior training technology to develop canines into more proficient and reliable sensors, while scientific research has provided tremendous support to help practitioners better understand how to utilize this powerful sensor. This book assembles a diverse group of authors with expertise in a variety of fields relating to detection canines and the chemical sensing industry, including both research and operational perspectives on detection canines. It illustrates how science enhances our understanding of how canines are employed for solving some of the world's leading detection challenges. **Dog's Best Friend?** John Sorenson, Atsuko Matsuoka, 2019-11-14.

In almost 40 per cent of households in North America, dogs are kept as companion animals. Dogs may be man's best friends, but what are humans to dogs? If these animals' loyalty and unconditional love have won our hearts, why do we so often view closely related wild canids, such as foxes, wolves, and coyotes, as pests, predatory killers, and demons? Re-examining the complexity and contradictions of human attitudes towards these animals, *Dog's Best Friend* looks at how our relationships with canids have shaped and also been transformed by different political and economic contexts. Journeying from ancient Greek and Roman societies to Japan's Edo period to eighteenth-century England, essays explore how dogs are welcomed as family, consumed in Asian food markets, and used in Western laboratories. Contributors provide glimpses of the lives of street dogs and humans in Bali, India, Taiwan, and Turkey, and illuminate historical and current interactions in Western societies. The book delves into the fantasies and fears that play out in stereotypes of coyotes and wolves, while also acknowledging that events such as the Wolf Howl in

Canada's Algonquin Park indicate the emergence of new popular perspectives on canids Questioning where canids belong how they should be treated and what rights they should have Dog's Best Friend reconsiders the concept of justice and whether it can be extended beyond the limit of the human species *American Dog* Paula Harrington, 2002 Empire of Dogs Aaron Skabelund, 2011-12-15 In 1924 Professor Ueno Eizaburo of Tokyo Imperial University adopted an Akita puppy he named Hachiko Each evening Hachiko greeted Ueno on his return to Shibuya Station In May 1925 Ueno died while giving a lecture Every day for over nine years the Akita waited at Shibuya Station eventually becoming nationally and even internationally famous for his purported loyalty A year before his death in 1935 the city of Tokyo erected a statue of Hachiko outside the station The story of Hachiko reveals much about the place of dogs in Japan's cultural imagination In the groundbreaking *Empire of Dogs* Aaron Herald Skabelund examines the history and cultural significance of dogs in nineteenth and twentieth century Japan beginning with the arrival of Western dog breeds and new modes of dog keeping which spread throughout the world with Western imperialism He highlights how dogs joined with humans to create the modern imperial world and how in turn imperialism shaped dogs' bodies and their relationship with humans through its impact on dog breeding and dog keeping practices that pervade much of the world today In a book that is both enlightening and entertaining Skabelund focuses on actual and metaphorical dogs in a variety of contexts the rhetorical pairing of the Western colonial dog with native canines subsequent campaigns against indigenous canines in the imperial realm the creation maintenance and in some cases restoration of Japanese dog breeds including the Shiba Inu the mobilization of military dogs both real and fictional and the emergence of Japan as a pet superpower in the second half of the twentieth century Through this provocative account Skabelund demonstrates how animals generally and canines specifically have contributed to the creation of our shared history and how certain dogs have subtly influenced how that history is told Generously illustrated with both color and black and white images *Empire of Dogs* shows that human canine relations often expose how people especially those with power and wealth use animals to define regulate and enforce political and social boundaries between themselves and other humans especially in imperial contexts
