Lost and Found Traditions Ralph Coe, 1986-05-01 **Lost and Found Traditions**, 1988-10-01 Lost and Found Traditions Ralph T. Coe, Irene Gordon, American Federation of Arts, Bobby Hansson, 1988 Lost and Found Traditions Ralph T. Coe, 1988 **Lost and Found Traditions**, 1986 Does a viable traditional American Indian art exist today or has such an art been lost Is it not too easy to dismiss native arts and crafts of today as pale reflections of once great art forms now gone forever *Lost and Found Traditions* examines these questions and in so doing traces the threads of continuity between native artistic traditions rooted in the past and their current manifestations In the course of extensive travel over the past decade curator Ralph T Coe has established a rapport with a broad spectrum of American Indian artists and their communities which has made it possible not only to study the range of contemporary traditional work but also to assemble a unique representative collection The Death of Authentic Primitive Art Shelly Errington, 2023-09-01 In this lucid witty and forceful book Shelly Errington argues that Primitive Art was invented as a new type of art object at the beginning of the twentieth century but that now at the century s end it has died a double but contradictory death Authenticity and primitivism both attacked by cultural critics have died as concepts At the same time the penetration of nation states the tourist industry and transnational corporations into regions that formerly produced these artifacts has severely reduced supplies of primitive art bringing about a second death Errington argues that the construction of the primitive in the nineteenth and twentieth centuries and the kinds of objects chosen to exemplify it must be understood as a product of discourses of progress from the nineteenth century European narrative of technological progress to the twentieth century narrative of modernism to the late twentieth century narrative of the triumph of the free market In Part One she charts a provocative argument ranging through the worlds of museums art theorists mail order catalogs boutiques tourism and world events tracing a loosely historical account of the transformations of meanings of primitive art in this century In Part Two she explores an eclectic collection of public sites in Mexico and Indonesia a national museum of anthropology a cultural theme park an airport and a ninth century Buddhist monument newly refurbished to show how the idea of the primitive can be used in the interests of promoting nationalism and economic development Errington s dissection of discourses about progress and primitivism in the contemporary world is both a lively introduction to anthropological studies of art institutions and a dramatic new contribution to the growing field of cultural studies **Art for a New Understanding** Mindy N. Besaw, Candice Hopkins, Manuela Well-Off-Man, 2018-10-01 *Art for a New Understanding* an exhibition from Crystal Bridges Museum of American Art that opened in October 2018 seeks to radically expand and reposition the narrative of American art since 1950 by charting a history of the development of contemporary Indigenous art from the United States and Canada beginning when artists moved from more regionally based conversations and practices to national and international contemporary art contexts This fully illustrated volume includes essays by art historians and historians and reflections by the artists included in

the collection Also included are key contemporary writings from the 1950s onward by artists scholars and critics investigating the themes of transculturalism and pan Indian identity traditional practices conducted in radically new ways displacement forced migration shadow histories the role of personal mythologies as a means to reimagine the future and much more As both a survey of the development of Indigenous art from the 1950s to the present and a consideration of Native artists within contemporary art more broadly *Art for a New Understanding* expands the definition of American art and sets the tone for future considerations of the subject It is an essential publication for any institution or individual with an interest in contemporary Native American art and an invaluable resource in ongoing scholarly considerations of the American contemporary art landscape at large
