Causality and Containment in Seventeenth-Century Chinese Fiction McMahon, 2023-07-31 A number of features characterize late Ming vernacular fiction as part of the general cultural expansion of that period These features centrally include the exposition of sexual transgression and the function of containment by which is meant the ideology of the control of desires The late Ming writers are studiously devoted to illustrating minute obscene or erotic details that belie the decorum of the orthodox surface However this subversiveness of detail decreases in intensity from the late Ming to the early Qing when values of containment are reinvoked Related topics are the theme of causality and its role in the story's mapping of the logic of adultery adultery as an emblem of the woman's escape from containment and the use of the narrative topos of the gap in the wall as a locus of sexual transgression

Train Your Mind, Change Your Brain Sharon Begley, 2008-11-12 Cutting edge science and the ancient wisdom of Buddhism have come together to reveal that contrary to popular belief we have the power to literally change our brains by changing our minds Recent pioneering experiments in neuroplasticity the ability of the brain to change in response to experience reveal that the brain is capable of altering its structure and function and even of generating new neurons a power we retain well into old age The brain can adapt heal renew itself after trauma compensate for disabilities rewire itself to overcome dyslexia and break cycles of depression and OCD And as scientists are learning from studies performed on Buddhist monks it is not only the outside world that can change the brain so can the mind and in particular focused attention through the classic Buddhist practice of mindfulness With her gift for making science accessible

meaningful and compelling science writer Sharon Begley illuminates a profound shift in our understanding of how the brain and the mind interact and takes us to the leading edge of a revolution in what it means to be human Praise for Train Your Mind Change Your Brain There are two great things about this book One is that it shows us how nothing about our brains is set in stone The other is that it is written by Sharon Begley one of the best science writers around Begley is superb at framing the latest facts within the larger context of the field This is a terrific book Robert M Sapolsky author of Why Zebras Don t Get Ulcers Excellent elegant and lucid prose an open mind here will be rewarded Discover A strong dose of hope along with a strong dose of science and Buddhist thought The San Diego Union Tribune The Oriental Rug Book Mary Churchill Ripley,1904 Buddhism in Its Connexion with Brāhmanism and Hindūism and in Its Contrast with Christianity Sir Monier Monier-Williams,1889 *White Lotus* Jamgon Mipham,2007-12-11 The commentary translated in these pages is unusual and rare But if the commentary is a rarity its subject matter the seven line invocation of Padmasambhava is one of the best known prayers in the Tibetan Buddhist world The overall significance of the Seven Line Prayer is perhaps best appreciated in relation to a practice called guru yoga or union with the nature of the guru The purpose of guru yoga is to purify and deepen the student s relationship with his or her teacher It is introduced as one of the preliminary practices and it remains crucial in fact its importance increases as one progresses through the more advanced levels of the tantric path The cultivation of devotion to the guru and the blending of one s mind with his or her enlightened mind is in the words of Dilgo Khyentse Rinpoche the most vital and necessary of all practices and is in itself the surest and fastest way to reach the goal of enlightenment Regarding the origin of this commentary Mipham refers in the colophon to an event that triggered the abrupt appearance in his mind of the hidden meaning of the prayer It is interesting to note that the language Mipham uses suggests that the commentary itself is not an ordinary composition but perhaps a treasure teaching specifically a mind treasure or gongter The Messenger ,1918 Buddhism: in Its Connection with Brahmanism and Hinduism and Its Contrast with Christianity Monier Monier-Williams,1889 *Cosmic religion of Maitreya* Галина Музаева,2022-04-29 The publication tells about the activities of the community Revival Bakshi Galina Muzaeva and her disciples The contents of the book are records of contacts made with messengers of the Lord of the Universe Kegshin Tsagan Aawa In addition to the amazing information about the Cosmos transmitted to the Earth the way of understanding the secrets of the universe is revealed and the performance of responsible tasks in order to strengthen ties with Higher Forces is described Projects drawings and diagrams obtained during communication sessions with the space forces over a number of years are presented These landmarks helped us achieve our goal in many ways PDF A4
