Love Letters Point Romance:

Love Letters and the Romantic Novel during the Napoleonic Wars Sharon Worley, 2017-01-06 Love letters during the Napoleonic wars were largely framed by concepts of love which were promoted through novels and philosophy. The standard texts so to speak which were written by major authors who inherited this Enlightenment bearing responded to the emerging concepts of love found in novels and philosophical essays. Love among this Napoleonic coterie is unique because it demonstrates the reciprocal relationship between the love letter and the romantic novel. Germaine de Staël, Juliette de Caumont, Chateaubriand, Benjamin Constant, Lady Emma Hamilton, Napoleon Bonaparte and his brother Lucien Bonaparte were the authors and recipients of some of the most passionate love letters of this period. They were also avid readers of the newly emerging genre of the romantic novel and many of them were also authors of such works where they projected their personal romances onto the characterization of their fictional heroes and heroines. In addition, these authors had lived through the recent French Revolution and the Terror. Imprisoned during the Revolution or branded as emigrants upon their return to Paris, their mature adult lives were spent in the shadows of the Napoleonic wars in which they shifted political loyalties as the specter of Napoleon's powers grew from First Consul to Emperor of Europe. The looming threat of war ignited the depths of their passions and inspired their intellectual analysis of love, happiness and suicide. Their evolving concept of love was a romantic, all-consuming passion which gripped the lovers in fatal embraces. This book's analysis of their love letters and romantic novels reveals the emerging political landscape of the period through extended metaphors of love and patriotism.

Love Letters Michelle Janning, 2018-06-14 In today's world of Tinder and texting, do we write and save love letters anymore? Are we more likely to save a screenshot of a text exchange or a box of paper letters from a lover? How might these different ways to store a love letter make us feel? Sociologist Michelle Janning's *Love Letters: Saving Romance in the Digital Age* offers a new twist on the study of love letters: what people do with them and whether digital or paper format matters. Through stories, a rich review of past research and her own survey findings, Janning uncovers whether and how people from different groups, including gender and age, approach their love letter curatorial practices in an era when digitization of communication is nearly ubiquitous. She investigates the importance of space and time, showing how our connection to the material world and our attraction to nostalgia matter in actions as seemingly small and private as saving, storing, stumbling upon, or even burning a love letter. Janning provides a framework for understanding why someone may prefer digital or paper love letters and what that preference says about a person's access and attachment to powerful cultural values such as individualization, taking time in a hectic world, longevity, privacy, and keeping cherished things in a safe place. Ultimately, Janning contends the cultural values that tell us how romantic love should be defined are more powerful than the format our love letters take.
