Love, Guilt and Reparation Melanie Klein, 2011-06-30 *Love, Guilt and Reparation* shows the growth of Melanie Klein's work and ideas between 1921 and 1945. The earlier papers reveal her intense preoccupation with the impact of infant anxieties upon child development. She traces these influences on criminality and childhood psychosis, symbol formation and intellectual inhibition and the early development of conscience. In the final paper on the Oedipus complex, Klein develops her theories of the earliest infant stages of development, extending Freud's analysis of the Oedipus complex and laying a basis for her own subsequent conceptualising of the paranoid schizoid position in the first six months of life. The volume also contains a foreword by Dr Hanna Segal and explanatory notes by the Editorial Board of the Melanie Klein Trust

Melanie Klein Deborah P. Britzman, 2015-11-07 This volume introduces the psychoanalyst Melanie Klein to the general field of education and traces her theories of mental life as an emotional situation through to problems of self-other relations in our own time. The case is made for Klein's relevance and the difficulties her theories pose to the activities of learning and pedagogical relation. Klein's vocabulary, the paranoid schizoid and depressive positions, phantasy, object relations, projective identification, anxiety, envy and the urge for reparation and gratitude are discussed in terms of their evolution and the designs of her main questions, all stemming from the problem of inhibition. Her contribution to an understanding of symbolization and the shift from concrete thinking to greater freedom of mind is analyzed. The essay develops the following questions: why is learning an emotional situation? How did Klein's life and larger history influence her views? What are her central theories of mental life? Why did Klein focus on anxiety and phantasies as making up the life of the mind? What is object relations theory? And what does Klein's model of the self proffer to contemporary education in schools and in universities

a political theory of restitution Challenging assumptions about restitution in the Western legal and political tradition where it has become nearly synonymous with reacquisition and where legal studies focus on material objects and claims to their ownership Zolkos argues that the development of restitutive norms has been auxiliary to the emergence of modern state sovereignty and excavates the restitutive tradition's mythical religious substrate Bringing together texts from within and outwith the Western canon of political theory and philosophy including the writings of Grotius Durkheim Freud and Klein as well as Mary Shelley's *Frankenstein* the book undertakes a dual task reading literary texts as a political theorising of restitution and reading political or sociological texts as literary narratives with distinctive restitutive tropes of repair undoing and return
