Mystical Secrets Of The Last Days:

Mystical Secrets of the Last Days Muhammad Nazim Adil al-Haqqani Naqshbandi, Shaykh M. An-Naqshbandi, Shaykh Nazim Adil Al-Haqqani, 1994 **The Naqshbandiyya** Itzhak Weismann, 2007-06-25 The Naqshbandiyya order has attracted increasing scholarly attention over the last two decades yet so far there has been no attempt to present a comprehensive picture of the evolution of the rich organization and ideational Naqshbandiyyah tradition This book is therefore by now a highly desirable contribution that will fill this gap in the literature of this important Sufi order Spanning almost a millennium in time and most of the Muslim world in space this book provides a comprehensive overview of the important Naqshbandiyyah Sufi order **Jihadist Preachers of the End Times** Ostransky Bronislav Ostransky, 2019-08-28 Focusing on apocalyptic manifestations found in ISIS propaganda this book situates the group's agenda in the broader framework of contemporary Muslim thought and explains key topics in millennial thinking within the spiritual context of modern Islamic apocalypticism Based on the group's primary sources as well as medieval Muslim apocalyptic literature and its modern interpretations the book analyses the ways ISIS presents its message concerning the Last Days as a meaningful inventive and frightening expression of collectively shared expectations relating to the supposedly approaching the End Times **Under a Watchful Eye** Adam Nevill, 2017-01-12 Under a Watchful Eye by Adam Nevill is a supernatural thriller from the award winning writer of The Ritual and Last Days Seb Logan is being watched He just doesn't know by whom When the sudden appearance of a dark figure shatters his idyllic coastal life he soon realizes that the murky past he thought he'd left behind has far from forgotten him What's more unsettling is the strange atmosphere that engulfs him at every sighting plunging his mind into a terrifying paranoia To be a victim without knowing the tormentor To be despised without knowing the offence caused To be seen by what nobody else can see These are the thoughts which plague his every waking moment Imprisoned by despair Seb fears his stalker is not working alone but rather is involved in a wider conspiracy that threatens everything he has worked for For there are doors in this world that open into unknown places Places used by the worst kind of people to achieve their own ends And once his investigation leads him to stray across the line and into mortal danger he risks becoming another fatality in a long line of victims **Sufism in the West** Jamal Malik, John Hinnells, 2006-04-18 With the increasing Muslim diaspora in post modern Western societies Sufism intellectually as well as sociologically may eventually become Islam itself due to its versatile potential Although Sufism has always provoked considerable interest in the West no volume has so far been written which discusses this aspect of Islam in terms of how it is practised in Western societies Bringing together leading international authorities to survey the history of Islamic mysticism in North America and Europe this book elaborates the ideas and institutions which organize Sufism and folk religious practices The chapters cover the orders and movements their social base organization and institutionalization recruitment patterns in new environments channels of disseminating ideas such as ritual charisma and organization reasons for their popularity among certain social

groups the nature of their affiliation with the countries of their origin Providing a fascinating insight into how Sufism operates within different spheres of society Sufism in the West is essential reading for students and academics with research interests in Islam Islamic history and social anthropology **Brahman→E = MC2 (Science and the Mystical Secrets of the Universe)** James Wallace,2022-07-22 Our century the 20th will complete the two thousandth year after Christ's appearance Many students of mysticism and the occult believe that the last years of this century will complete another world cycle in the development of man Nostradamus was one among many who prophesied a global catastrophe in the year 1999 Certainly the growth in scientific knowledge over the last 100 years and the ever increasing pace at which new discoveries are being made gives one the impression that mankind is trying to catch up on lost time Physics in particular has undergone some revolutionary changes Newtonian concepts and ideas though still valid in general terms have been superimposed by what is today popularly known as the New Physics We are now literally looking into the heart of matter which despite its solidity is nevertheless recognised as energy that has developed substance on the wings of speed In fact so closely are velocity and mass interlinked that in many experiments it is impossible to distinguish one from the other Faced with this dilemma even our scientists have begun to philosophize New theories and concepts that appear bizarre when first encountered by the non scientist are constantly being brandished in scientific circles every one of them being supported by algebraic equations Machines which are four miles long have been constructed to study the behaviours of these tiny subatomic pellets of energy And it has been found that they are the product of a mysterious void appearing from and disappearing into nowhere Further all subatomic particles appear to be born with a death wish No sooner are they created they disintegrate into other more stable particles as if they were born with the desire to sacrifice themselves for the continued propagation of our material reality **Sufis and Salafis in the Contemporary Age** Lloyd Ridgeon,2015-04-23 Sufis and Salafis in the Contemporary Age explores the dynamics at play between what are usually understood as two very different forms of Islam namely Sufism and Salafism Sufism is commonly understood as the peaceful and mystical dimension of Islam whereas Salafism is perceived as strictly pietistic and moralist and for some it conjures up images of violent manifestations of Islam Of course these generalisations require more nuanced investigation and this book provides a number of case studies from around the Islamic world to unpack the intricate relationship between the two The diversity of the case studies that focus on Islamic groups in India Iraq Egypt Morocco Turkey and South East Europe reflect the multiplicity of relationships that exist between the Salafis and Sufis The specific case studies are framed by an introduction that provides essential historical background and definitions of the terms and also by general studies of the Sufi Salafi relationship which enable the reader to focus on the large picture This will be the first book to investigate the relationship between Sufism and Salafism in such a wide fashion and includes chapters on traditional Sufis as well as from those who consider that Sufism and Salafism are not necessarily contradictory Islamic Myths and Memories Itzhak Weismann,Mark Sedgwick,Ulrika

Mårtensson,2016-05-06 Islamic myths and collective memory are very much alive in today's localized struggles for identity and are deployed in the ongoing construction of worldwide cultural networks This book brings the theoretical perspectives of myth making and collective memory to the study of Islam and globalization and to the study of the place of the mass media in the contemporary Islamic resurgence It explores the annulment of spatial and temporal distance by globalization and by the communications revolution underlying it and how this has affected the cherished myths and memories of the Muslim community It shows how contemporary Islamic thinkers and movements respond to the challenges of globalization by preserving reviving reshaping or transforming myths and memories

Middle Eastern Societies and the West Meir
