Numeral Types And Changes Worldwide:

Numeral Types and Changes Worldwide Jadranka Gvozdanović, 1999 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language. The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by approaching language from an interdisciplinary perspective. TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages. It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language. TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints. High quality standards are ensured through anonymous reviewing.

A Typology of Numeral Systems in South Asian Languages Kumari Mamta, 2024-04-10 This book takes a journey into the fascinating world of numerical systems in South Asian languages offering a unique exploration of the intricate patterns, cultural nuances and historical significance embedded within the numerical frameworks of the given languages. It blends the discovery of new facts with the reinterpretation of existing ones while developing a methodology for investigating number systems that can be applied to languages around the world. It is a groundbreaking study that unveils the complex linguistic patterns and socio cultural significance of numerical systems in South Asian languages offering valuable insights for researchers, linguists, anthropologists and language enthusiasts alike. By bridging the gap between linguistics, anthropology, cultural studies and mathematics, this book encourages interdisciplinary dialogue and collaboration by examining numeral systems from multiple angles.

Nominal Classification in Asia and Oceania Marc Allasonnière-Tang, Marcin Kilarski, 2023-12-01

Linguists have long been interested in systems of nominal classification due to their diverse functions as well as cognitive and cultural correlates Among others ongoing research has focused on semantic functional and morphosyntactic properties of complex systems such as co occurring gender and numeral classifiers Such approaches have typically focused on the languages of north western South

America and Papua New Guinea This volume proposes to fill in a gap in existing research by focusing on Asia based on case studies from languages belonging to a wide range of families i e Austroasiatic Austronesian Dravidian Hmong Mien Indo European Mongolic Sino Tibetan and Tai Kadai as well as the language isolate Nivkh Gender and classifiers in these languages are approached within several different perspectives i e functional typological and diachronic thus revealing complex patterns in their lexical and pragmatic functions as well as origin development and loss Describing and analysing such properties is a unique and innovative contribution of the volume

The Cambridge Handbook of Linguistic Typology Alexandra Y. Aikhenvald, R. M. W. Dixon, 2017-03-30 Linguistic typology identifies both how languages vary and what they all have in common This Handbook provides a state of the art survey of the aims and methods of linguistic typology and the conclusions we can draw from them Part I covers phonological typology morphological typology sociolinguistic typology and the relationships between typology historical linguistics and grammaticalization It also addresses typological features of mixed languages creole languages sign languages and secret languages Part II features contributions on the typology of morphological processes noun categorization devices negation frustrative modality logophoricity switch reference and motion events Finally Part III focuses on typological profiles of the mainland South Asia area Australia Quechuan and Aymaran Eskimo Aleut Iroquoian the Kampa subgroup of Arawak Omotic Semitic Dravidian the Oceanic subgroup of Austronesian and the Awyu Ndumut family in West Papua Uniting the expertise of a stellar selection of scholars this Handbook highlights linguistic typology as a major discipline within the field of linguistics

Datives and Other Cases Daniel Hole, André Meinunger, Werner Abraham, 2006-04-19 This volume provides a state of the art account of research into datives and other morphological cases The contributors among them leading scholars in the field present fresh insights into traditional issues such as the dichotomy between lexical and structural case and open up fascinating new areas of research A recurrent feature of the majority of contributions is their combined syntax semantics perspective Germanic varieties Serbian Albanian and other Balkan languages alongside Chinese Japanese Tagalog are discussed from various theoretical angles such as mainstream generativism lexical functional grammar and functional typology Despite the broad range of facts spanning the distance between acquisition data and dialectology the papers are connected by a renewed interest in form function correspondencies This volume will be welcomed by theoretical linguists and typologists with an interest in argument and event structure linguists studying the case systems of individual languages and researchers in search for up to date discussion of Germanic datives

California Indian Languages Victor Golla, 2022-02 Nowhere was the linguistic diversity of the New World more extreme than in California where an extraordinary variety of village dwelling peoples spoke seventy eight mutually unintelligible languages This comprehensive illustrated handbook a major synthesis of more than 150 years of documentation and study reviews what we now know about California s indigenous languages Victor Golla outlines the basic structural features of more than two dozen language types and cites all the major sources both published and unpublished

for the documentation of these languages from the earliest vocabularies collected by explorers and missionaries to the data amassed during the twentieth century by Alfred Kroeber and his colleagues to the extraordinary work of John P Harrington and C Hart Merriam Golla also devotes chapters to the role of language in reconstructing prehistory and to the intertwining of language and culture in pre contact California societies making this work the first of its kind an essential reference on California s remarkable Indian languages
