Thousands and Thousands of Lovers Anna Harrison, 2022-09-05 *Thousands and Thousands of Lovers* examines the spiritual significance of community to the Cistercian nuns of Helfta a concern that lies at the heart of the monastery's literature Focusing on a woefully understudied resource and the largest body of female authored writings in the thirteenth century this book offers insight into the religious preoccupations of a theologically expert and intellectually vibrant cloister to reveal a subtle interplay between communal practice and private piety other directed attention and inward religious impulse It considers the nuns attitudes toward community among themselves and with their household members as well as with souls in purgatory and the saints

The Plot to Kill God Paul Froese, 2008-08-06 The story of the survival of religion in the Soviet Union is one of the great surprises of the end of the twentieth century Indeed it is so surprising that many social scientists write it off attribute it to cultural nationalism or ignore it It is assumed that religion simply was given a temporary reprieve and would shortly succumb to secularization Professor Froese demolishes this assumption Andrew Greeley author of *The Catholic Imagination* *The Plot to Kill God* is refreshingly creative in bringing evidence from a neglected but hugely important case to bear on thinking through social scientific theories of religion This is an important contribution to a field greatly in need of just this kind of solid historical case analysis Christian Smith University of Notre Dame A wonderful book that will break the hearts of Richard Dawkins and all the other angry atheists After more than 70 years of intensive educational efforts and

brutal persecution of religion there were no fewer believers in Russia than in the United States Rodney Stark Scientific socialism in communist countries turned out to be a hollow faith incapable of replacing more traditional religions Paul Froese beautifully shows why and how this provides us with useful lessons about the continuing power of religion today Daniel Chirot University of Washington Froese compellingly tests many theories about the causes of religious belief strength and resurgence The Plot to Kill God highlights the close link between human nature and religious faith thus making a broad argument about the anthropological foundation of religion while also using the tools of social science to advance our knowledge concepts and theories about religion and society Margarita Mooney University of North Carolina at Chapel Hill

Wartime cinema, Englishness and propaganda Ina Habermann, 2025-09-30 This book provides a fresh analysis of the wartime work of Michael Powell and Emeric Pressburger and their team the Archers It argues that in their earlier work Powell and Pressburger should be seen as middlebrow storytellers whose stories explore national identity in times of war Their wartime work is discussed in four phases the first phase covers their contributions to the phoney war the second traces their engagement with the people's war The third phase sees the Archers move beyond propaganda towards melodramas of Englishness The fourth phase dramatizes post war preoccupations with an increasing focus on memory and trauma The book also looks at Pressburger's later work including his two published novels Killing a Mouse on Sunday and The Glass Pearls

Women in Chinese Buddhism Jessica Huset Tilton, 2025-10-30 Tilton examines how cultural political and economic forces exert pressures on the levels of freedom and equality for female Buddhists within the Buddhist community as well as women's rights within society The book charts women's spiritual paths over four periods beginning with the Buddha and his revolutionary stance on women to the creation of a fully ordained female Sa gha in China which peaked during the Tang dynasty and finally to its resurgence in the late Qing and early Republic period ending with a sharp decline to near extinction during the Mao Zedong years 1949-1976 As the nun and lay communities arise directly from the broader female community Tilton argues that there is a direct correlation between women's rights issues and those of liberties for Buddhist women within the Sa gha Specifically women's equality within this world as well as their right to achieve liberation from this world or sa s ra Charting
