BOPOD - Wong's Nursing Care of Infants and Children Marilyn J. Hockenberry,David Wilson,2014-01-30 The most trusted authority in pediatric nursing Wong s Nursing Care of Infants and Children provides unmatched comprehensive coverage of pediatric growth development and conditions

Its unique age and stage approach covers child development and health promotion as well as specific health problems organized by age groups and body systems. Leading pediatric experts Dr Marilyn Hockenberry and David Wilson provide an evidence-based clinical perspective based on nearly 30 years of hands-on experience. Easy to read and extensively illustrated, this edition focuses on patient-centered outcomes and includes updates on topics such as the late preterm infant, immunizations, the H1N1 virus, and childhood obesity. A clear, straightforward writing style makes content easy to understand. Unique Evidence-Based Practice boxes help you apply both research and critical thought processes to support and guide the outcomes of nursing care. Unique Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress. Unique Critical Thinking exercises help you test and develop your own analytical skills. A unique focus on family content emphasizes the role and influence of the family in health and illness, with a separate chapter on family-centered care. Unique Nursing Care Guidelines provide clear, step-by-step, detailed instructions on performing specific skills or procedures. Unique Emergency Treatment boxes serve as a quick reference for critical situations. Unique Cultural Awareness boxes highlight ways in which variations in beliefs and practices affect nursing care for children. A developmental approach identifies each stage of a child's growth. Health promotion chapters emphasize principles of wellness and injury prevention for each age group. Student-friendly features include chapter outlines, learning objectives, key points, references, and related topics, and electronic resources to help you study and review important content. A community focus helps you care for children outside the clinical setting. Nursing Care Plans include models for planning patient care with nursing diagnoses, patient/family goals, nursing interventions, rationales, expected outcomes, and NIC and NOC guidelines. Nursing Tips include helpful hints and practical clinical information, and Nursing Alerts provide critical information that must be considered in providing care.

Nursing Care of Children Susan Rowen James, Jean Weiler Ashwill, Susan Colvert Droske, 2002. This concise, student-friendly text is ideal for shorter courses in pediatric nursing. A focus on common and important disorders keeps the material relevant to daily practice. In this 2nd Edition, current issues and trends are addressed through the use of community nursing care plans, expanded health promotion content, and enhanced communication tips. A highlighted Clinical Reference section opens each Alterations chapter, providing a review of the relevant body system, a discussion of pediatric differences, and a description of common diagnostic tests. Pathophysiology boxes describe how disease conditions develop, providing a scientific basis for understanding the therapeutic management and nursing care of an illness. Want to Know boxes guide the student in teaching the parents and child about self-care in the home and follow-up care in community-based health care settings. Each chapter opens with Learning Objectives and Definitions and closes with Key Concepts to assist students in focusing their study on important topics and key terms to be gleaned from each chapter. Photo Stories provide a visual description of the nursing role in a variety of settings. Communication Cues offer students tips and practical examples of communicating with children of all ages as well as with their parents. Procedure boxes highlight step-by-

step instructions for common nursing tasks to assist students in their clinical practice The Resources for Health Care Providers and Families appendix organized by topic identify organizations that provide condition specific information and support to the health care professional or to parents and children in the community Reorganized table of contents condenses and combines material into more logical streamlined approach making the textbook more useful to shorter or combined maternity pediatric courses Health Promotion Boxes outline American Academy of Pediatrics AAP recommended well child visits and include growth and development milestones health screening and immunizations and anticipatory guidance Pediatric health priorities as identified by the U S Department of Health and Human Services are highlighted in Healthy People 2010 boxes to assist the student in formulating pediatric health promotion goals Critical to Remember boxes alert the student to important information needed to deliver safe nursing care Critical Thinking Exercises present students with issues and problems in clinical scenarios that challenge the student to apply learning to practice Suggested answers and rationales appear at the end of the chapter Special Nursing Care Plans guide the student in planning care in the home or community based health care setting Drug Guides highlight common medications and provide students with a quick reference on nursing implications
