El Boushy, A.F.B. Van Der Poel, 2012-12-06 In developed market economies with intensive animal production systems such as The Netherlands many new feedstuffs have been introduced as part of the diets of ruminant and monogastric animals These new feedstuffs are often by products of human food processing It is important that these by products and also the by products from wastes are properly evaluated with regard to the possibilities of incorporating them into livestock diets Research on the subject of feed from waste its processing and its use in the nutrition of poultry has increased considerably during the last decade The Department of Animal Nutrition of Wageningen Agricultural University WAU Wageningen The Netherlands in close co operation with the Poultry Feeding and the Processing Industry has been active in this field In order

to update research and to expedite further work in this field a comprehensive review of the literature on the subject of feed from waste was made Such a study would not only bring the industry up to date on the subject but could also indicate specific topics which may be of great value for developing market economies Poultry scientists and technologists suggested that a review would fill a need as a reference and textbook not only for the industry but also for undergraduates and graduates of agricultural colleges and extension services all over the world

Vitamin History, the Early Years Lee McDowell, 2013-02-11 Casimer Funk 101 years ago first used the term vitamine in 1912 What were later to be known as vitamin deficiency diseases such as scurvy beriberi night blindness xerophthalmia and rickets had plagued the world at least since the existence of written records Records of medical science from antiquity attesting to human association of certain foods e g liver with either the cause or prevention of diseases are considered the nebulous beginnings of the concept of these essential nutrients The concept of a vitamin or accessory growth factor was developed in the early part of the 20th Century and for almost five decades there was an exciting era of isolation identification and synthesis of the vitamins The present book contains 10 chapters and methodically traces each vitamin from an unidentified factor to its discovery and synthesis In relation to history of nutrition vitamins are by far the most interesting class of nutrients Following the clues of the existence of each vitamin is similar to a good mystery story The early beginnings of the vitamin theory relate to reports that animals did not survive on diets of only carbohydrates fats protein and salts Beriberi was the earliest documented deficiency disorder 2697 B C High incidence of beriberi in Asian countries was due to over milling rice polished rice The subsequent research in this disease led to the discovery of vitamins and helped to establish some of the principal features of deficiencies in general Vitamin A deficiency results in two eye diseases of night blindness and xerophthalmia According to some of the oldest records liver cured these diseases Rickets the devastating bone disease of young children is a vitamin D deficiency The vitamin is referred to as the sunshine vitamin as it can be synthesized in the body Rickets was common in northern cities and was more rampant in industrial cities as industrial pollution prevented children from sunlight exposure Pellagra a niacin deficiency is a devastating disease that brought pain suffering and death and resulted when corn was the main food source Symptoms of the disease were referred to as the 4 D s dermatitis diarrhea dementia and death Scurvy which had been feared since ancient times resulted from diets devoid of vitamin C rich foods of fruits and vegetables Scurvy was the vitamin deficiency disease that caused the most death and suffering in recorded history A fatal anemia pernicious anemia was a vitamin B 12 deficiency The disease resulted by only consuming plant foods or lack of a factor produced by the stomach needed for absorption of the vitamin The book contains pictures of very serious consequences and magnitude of vitamin deficiency diseases Likewise the book contains levity by illustrating humorous situations on causes and cures of these diseases The purpose of the present publication is to present an in depth review of the early history of vitamins to illustrate the devastation of these diseases and also provide some levity Author Bio The author of the book Dr Lee McDowell is a

nutritional professor at the University of Florida In nutrition research he has published over 1500 scientific articles and has written 7 books Five different nutrition courses have been taught with a graduate vitamin nutrition course offered over 25 years During this time period he wrote two editions of a vitamins textbook for his graduate class and for courses at other universities Dr McDowell is a Fellow of two International Societies and has won many awards in teaching and research From one society he won the highest award available for research Morrison Award Internationally Dr McDowell is well known having made 271 different country visits since 1971 He has given over 500 major talks in 42 different countries Early Vitamin History presented in a humorous way is his most favorite topic

The Top Books of the Year Nutrition Of The Chicken By Scott M The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Nutrition Of The Chicken By Scott M : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Nutrition Of The Chicken By Scott M : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
