Here comes the songs of the Mother earthbound melodies woven together like a storm in spring Hear them the storytelling trees the struggling soil of old the loving leaves above the breaking branches and the wailing creeks that dried its throat out of grief See them in this parade they made for you The folklores they whispered and the feet that they welcomed The love they proclaimed and the fall that tormented them The mourning they did the next morning lamenting what once was unbeknownst to death and eternal history A disco ball with pieces containing their own shape and reflections of what is born in the past lives in present and will linger in the future A beautifully broken pieces of mirror puzzled together to reflect not only one reflection of emotion and who owns them but a manifold of it The wonder the misery the bliss the pain and the eruption sang by you or someone you know By someone you will know someone you want to know someone who wants to know you and someone you don't know and don't want to know at all Out there rivers became seas and seas grow into oceans ships sinking and sailing limbs swimming and drowning But a shore of mercy will appear with thousands of sleeping seashells to tell you once you wake them to sing to you once you knew you'll be out of the woods With your gathered woodlore you transform

Annual Report of the State Commissioner of Common Schools, to the Governor of the State of Ohio, for the Year ... Ohio. Office of the State Commissioner of Common Schools,1905 *Love and Loss* Betty Hibod,2025-10-06 Many books have been written as histories recounting events that shaped the life of a group society nation or civilization or as biographies recounting events and achievements relating to one person s life and work Many books have been written putting forth ideas philosophies and words of wisdom to live by Some of these we call holy books or scripture Fewer books have been written like this one which go behind the scenes of history lay bare the feelings behind the philosophies and document the painful and joyful inner path along which historical events and philosophical ideas emerge This book is intensely even shockingly personal not clinical or abstract or detached It is an intimate detailed sensual and sometimes disturbing account of a life lived on the cusp that bridges time and eternity Its focus is narrow it does not reveal much at all about anyone s visible public life or accomplishments but it explores in great depth the invisible contents of minds hearts and souls The scriptures and scriptural commentaries of most religions describe a path to salvation or bliss and provide instructions or guideposts for moving along the path but they are still only theoretical hypothetical mythical or metaphorical accounts This book seeks to show how the theories and hypotheses play out pragmatically in real time and space how the myths come alive in flesh and spirit how the metaphors become the very things they symbolize How does daily life look from inside someone in the throes of awakening How does she know who or what she is How is her destiny revealed How do seemingly ordinary mundane events become miracles This book begins to answer those questions [On Being Human](#) Jonathan Noble,2018-12-26 An intellectual multi disciplined journey exploring what it means to be human by one very ordinary man who was deeply interested in answering this question for himself and possibly at least beginning to answer this very ancient perplexing question for others Also an excellent resource book for those interested in beginning their own journey into the meaning of human being
