Philosophical Writings / Philosophische Schriften Gunther Wenz, 2020-03-23 No detailed description available for Philosophical Writings Philosophische Schriften *Gottfried Wilhelm Leibniz: Philosophy of mind, freewill, political philosophy, influences* R. S. Woolhouse, 1994 **Kleine philosophische Schriften** Philip Merlan, 1976 Philosophische Schriften Franz Hoffmann, 1881 **Kleine Schriften zur hellenistisch-römischen Philosophie** Woldemar Görler, 2016-06-21 This book presents 17 articles by Woldemar Görler published during the last 25 years some of them not easily accessible hitherto Most of them treat details of the history of the Hellenistic Academy and Cicero Other papers explore the aftermath of Hellenistic thought in Lucilius Lucretius and Seneca the literary form of Roman philosophical treatises and Cicero's personal interpretation of Academic scepticism All contributions are based on close reading of the source material No attempt is made to harmonize conflicting evidence Instead different stages of the school discussions and some gradual changes in philosophical doctrine emerge more clearly Special attention is paid to the conversion of Greek terms into Latin in some cases implying unexpected consequences in meaning *Bibliography of Semiotics, 1975–1985*, 1986-01-01 This bibliography of semiotic studies covering the years 1975–1985 impressively reveals the world wide intensification in the field During this decade national semiotic societies have been founded all over the world a great number of international national and local semiotic conferences have taken place the number of periodicals and book series devoted to semiotics has increased as has the number of books and dissertations in the field This bibliography is the result of a dedicated effort to approach complete coverage Gottfried Wilhelm Leibniz: Metaphysics and its foundations II R. S. Woolhouse, 1994 *The Routledge World Companion to Polish Literature* Tomasz Bilczewski, Stanley Bill, Magdalena Popiel, 2021-09-30 The Routledge World Companion to Polish Literature offers an introduction to Polish literature through thirty three case studies covering works from the Middle Ages up to the present day Each chapter draws on a text or body of work examining its historical context as well as its international reception and position within world literature The book presents a dual perspective on Polish literature combining original readings of key texts with discussions of their two way connections with other literatures across the globe With a detailed introduction offering a narrative overview the book is divided into six sections offering a chronological pathway through the material Contributors from around the world examine the various cultural exchanges at play with each chapter including Definitions of key terms and brief overviews of historical and political events literary eras trends movements groups and institutions for those new to the area Analysis and notes on translations including their hidden dimensions and potential Textual focus on poetics such as strategies of composition style and genre A range of historical sociological political and economic contexts From medieval song through to the contemporary novel this book offers an interpretive history of Polish literature while also positioning its significance within world literature The detailed introductions make it accessible to beginners in the area while the original analysis and focused case studies

will also be of interest to researchers **Die Philosophische Schriften Vol II** G.W. Leibnitz, The Experiential Turn in Eighteenth-Century German Philosophy Karin de Boer, Tinca Prunea-Bretonnet, 2021-05-17 This collection of essays challenges the prevailing assumption that eighteenth century German philosophy prior to Kant was largely defined by post Leibnizian rationalism and accordingly a low esteem of the cognitive function of the senses It does so by highlighting the various ways in which eighteenth century German philosophers reconceived the notion and role of experience in their efforts to identify defend and contest the contribution of sensibility to disciplines such as metaphysics theology the natural sciences psychology and aesthetics Engaging in depth with Tschirnhaus Wolff the Wolffians eclecticism Popularphilosophie the Berlin Academy Tetens and Kant its thirteen chapters present a more nuanced understanding of the German reception of British and French ideas and dismiss the prevailing view that German philosophy was largely isolated from European debates Moreover the book introduces a number of relatively unknown but highly relevant philosophers and developments to non specialized scholars and contributes to a better understanding of the richness and complexity of the German Enlightenment

Kant's Transcendental Deduction and the Theory of Apperception Giuseppe Motta, Dennis Schulting, Udo Thiel, 2022-09-20 This volume examines 1 the philosophical sources of the Kantian concepts apperception and self consciousness 2 the historical development of the theories of apperception and deduction of categories within the pre critical period 3 the structure and content of A as well as B deduction of categories and finally 4 the Kantian and non Kantian meaning of apperception and self consciousness **The Cambridge Companion to Malebranche** Steven

Nadler, 2000-07-03 This Companion contains specially commissioned essays addressing Malebranche s thought comprehensively and systematically **Unfinished Music** Richard Kramer, 2012-07-12 Unfinished Music explores with subtle insight the uneasy relationship between the finished work and the elusive provocative traces of the profound labors buried in its past **Euler as Physicist** Dieter Suisky, 2008-12-05 The subject of the book is the development of physics in the 18th century centered upon the fundamental contributions of Leonhard Euler to physics and mathematics This is the first book devoted to Euler as a physicist Classical mechanics are reconstructed in terms of the program initiated by Euler in 1736 and its completion over the following decades until 1760 The book examines how Euler coordinated his progress in mathematics with his progress in physics **Routledge Encyclopedia of Philosophy** Edward Craig, 1998 Volume five of a ten volume set which provides full and detailed coverage of all aspects of philosophy including information on how philosophy is practiced in different countries who the most influential philosophers were and what the basic concepts are

The Gift of Science Roger BERKOWITZ, Roger Stuart Berkowitz, 2009-06-30 Moving from the scientific revolution to the nineteenth century rise of legal codes Berkowitz tells the story of how lawyers and philosophers invented legal science to preserve law s claim to moral authority The gift of science however proved bittersweet Instead of strengthening the bond between law and justice the subordination of law to science transformed law from an ethical order into a tool for social and

economic ends *The History of Experience* Wolfgang Leidhold, 2022-10-14 In a wide arc from the Paleolithic to the present day this book explores the changing structure of human experience and its impact on the dynamics of cultures civilizations and political ideas The main thesis is a paradigm shift the structure of human experience is not a universal constant but changes over time Looking at the entire range of human history there are a total of nine transformations beginning with conscious perception and imagination in the Paleolithic and ending for the time being in modern times with the discovery of the unconscious In between this book explores six more transformations that took place in different regions and at different times which include a sense of order self reflection the eye of reason spiritual experience as well as the experience of creativity and of consciousness As such *The History of Experience* presents both a cross cultural and comparative theory of experience and cultural dynamics and an exploration of rich materials from East and West This book is of great use to upper level undergraduates postgraduates and scholars interested in the relationship between history human experience culture and political order **Active Materials** Peter Fratzl, Michael Friedman, Karin Krauthausen, Wolfgang Schäffner, 2021-12-20 What are active materials This book aims to introduce and redefine conceptions of matter by considering materials as entities that sense and respond to their environment By examining the modeling of the experiments on and the construction of these materials and by developing a theory of their structure their collective activity and their functionality this volume identifies and develops a novel scientific approach to active materials Moreover essays on the history and philosophy of metallurgy chemistry biology and materials science provide these various approaches to active materials with a historical and cultural context The interviews with experts from the natural sciences included in this volume develop new understandings of active matter and active materials in relation to a range of research objects and from the perspective of different scientific disciplines including biology physics chemistry and materials science These insights are complemented by contributions on the activity of matter and materials from the humanities and the design field Discusses the mechanisms of active materials and their various conceptualizations in materials science Redefines conceptions of active materials through interviews with experts from the natural sciences Contextualizes historizes and reflects on different notions of matter materials and activity through contributions from the humanities A highly interdisciplinary approach to a cutting edge research topic with contributions from both the sciences and the humanities Monatschrift Fur Hohere Schulen ,1903 *The ^ASelf* ,2021-08-03 Throughout the history of philosophy the idea of a self as an irreducible part of a human being was often debated and contested In this volume in the Oxford Philosophical Concepts series the contributors trace the history of how philosophers have addressed these self related questions Philosophers discussed include Plotinus and Augustine Ibn Sina Thomas Aquinas Rene Descartes John Locke Leibniz David Hume Denis Diderot Immanuel Kant and others up through the 20th century
