the Mid-Victorian Imagination Grace Seiberling, 1986-05 This book results from research which was begun with all the casualness but inherent seriousness of the nineteenth century amateur I had the privilege of frequent access to the archives of the International Museum of Photography at George Eastman House and began to go through the nineteenth century photographs in a systematic way I wanted to go beyond the clichés of the history of photography as a series of often reproduced masterworks and to find out something about the history of seeing or at least of thinking about images in the nineteenth century Preface *Impressed by Light* Roger Taylor, Larry John Schaaf, 2007 Sumario Photography and an age of paradox The formative years the calotype in the 1840s The great exhibition of 1851 Battling patents and gaining legitimacy The calotype finds its place Subjects fit for the camera British sensibilities 1855 1857 Echoes of the grand tour Under an Indian sky Commercialism advances the calotype declines *The British Journal of Photography* William Crookes, T. A. Malone, George Shadbolt, J. Traill Taylor, William Blanchard Bolton, Thomas Bedding, 1917 *The Gender of Photography* Nicole Hudgins, 2020-09-02 It would be unthinkable now to omit early female pioneers from any survey of photography's history in the Western world Yet for many years the gendered language of American British and French photographic literature made it appear that women's interactions with early photography did not count as significant contributions Using French and English photo journals cartoons art criticism novels and early career guides aimed at women this volume will show why and how early photographic clubs journals exhibitions and studios insisted on masculine values and authority and how Victorian women engaged with photography despite that dominant trend Focusing on the period before 1890 when women were yet to develop the self assurance that would lead to broader recognition of the value of their work this study probes the mechanisms by which exclusion took place and explores how women practiced photography anyway both as amateurs and professionals Challenging the marginalization of women's work in the early history of photography this is essential reading for students and scholars of photography history and gender studies **Photography**, 1908 **All the Mighty World** Gordon Baldwin, Malcolm R.
