Prescriber and Clinical Repertory of Medicinal Herbs Frederick Harper-Shove,1952 **The Earthwise Herbal**

Repertory Matthew Wood,2016-11-01 Discover the healing applications of a wide variety of medicinal plants with this first comprehensive herbal repertory from an internationally known herbalist Expert herbalist Matthew Wood takes the guesswork out of the application of medicinal plants Here he provides an invaluable cross reference of constitutional types energetic categories and specific systems so herbalists can more easily identify the right remedies for a specific condition Unlike many reference books in which medicinal plants are defined simply by condition or disease name this book offers tools for differentiating between remedies and analyzing each case in a holistic fashion While this system of cross referencing is well known to homeopaths it is less frequently used by herbalists The Earthwise Herbal Repertory seeks to bridge the gap between different healing systems incorporating knowledge from ancient Greek and traditional Native American medicine nineteenth century botanical medicine homeopathy and modern biomedical research This definitive repertory proves useful for homeopaths and herbalists professionals and home practitioners alike The Traditional Healer's Handbook Ghulam Moinuddin Chishti,Hakim G. M. Chishti,1991 This comprehensive guide to healing synthesizes the principles and practices of Hippocratic Chinese Ayurvedic and Persian medicine and includes the first English translation of one of the handbooks of Avicenna whose writings have been classics in herbal and dietetic medicine for more than 1 000 years Based on the philosophy that food is the best medicine Avicenna s canon provides simple and effective diagnostic techniques and therapies for maintaining health and strengthening the immune system Includes a botanical guide for the 100 most used healing herbs and recommended treatments for 400 conditions including diet and nutrition herbology and aromatherapy **Prescriber and Clinical Repertory of Medical Herbs** F. Hastings,2019-03-13 This book presents attitudes information and tools for a holistic approach to medicine health and mental health In our discussions among ourselves and with the contributing authors we defined three aspects of a holistic approach First such an approach involves expanding our focus to include the many personal familial social and environmental factors that promote health prevent illness and encourage healing Second a holistic approach views the patient as an individual person not as a symptom bearing organism This attitude emphasizes the self responsibility of the person for his or her health and the importance of mobilizing the person s own health capacities rather than treating illness only from the outside Third the holistic approach tries to make wise use of the many diagnostic treatment and health modalities that are available in addition to the standard materia medica including alternative medical and healing systems as well as psychological techniques and physical modalities Some of these methods of treatment and health practices are already accepted others are accepted but not applied in practice and still others need further research to explore the range of their uses **Herbal Medicines in Pregnancy and Lactation** Edward Mills,Jean-Jacques Dugoua,Daniel Perri,Gideon Koren,2013-03-20 This work focuses on the therapeutics safety and risk information of herbs and supplements used during pregnancy and lactation for obstetricians maternal fetal medicine specialists and primary care physicians **The Herb Book** John Lust,2014-07-16
