**Loss Trauma and Resilience** Pauline Boss, 2006 Whether it is a parent in the grip of Alzheimer's or a spouse missing in a disastrous event we are all touched by ambiguous loss This work guides therapists with concepts and practices in the task of building resilience in clients who face the trauma of loss without resolution **The Myth of Closure: Ambiguous Loss in a Time of Pandemic and Change** Pauline Boss, 2021-12-14 How do we begin to cope with loss that cannot be resolved The COVID 19 pandemic has left many of us haunted by feelings of anxiety despair and even anger In this book pioneering therapist Pauline Boss identifies these vague feelings of distress as caused by ambiguous loss losses that remain unclear and hard to pin down and thus have no closure Collectively the world is grieving as the pandemic continues to change our everyday lives With a loss of trust in the world as a safe place a loss of certainty about health care education employment lingering anxieties plague many of us even as parts of the world are opening back up again Yet after so much loss our search must be for a sense of meaning and not something as elusive and impossible as closure This book provides many strategies for coping encouraging us to increase our tolerance of ambiguity and acknowledging our resilience as we express a normal grief and still look to the future with hope and possibility **The End of Trauma** George A. Bonanno, 2021-09-07 With groundbreaking research on the psychology of resilience Adam Grant a top expert on human trauma argues that we vastly overestimate how common PTSD is in and fail to recognize how resilient people really are After 9 11 mental health professionals flocked to New York to handle what everyone assumed would be a flood of trauma cases Oddly the flood never came In The End of Trauma pioneering psychologist George A Bonanno argues that we failed to predict the psychological response to 9 11 because most of what we understand about trauma is wrong For starters it's not nearly as common as we think In fact people are overwhelmingly resilient to adversity What we often interpret as PTSD are signs of a natural process of learning how to deal with a specific situation We can cope far more effectively if we understand how this process works Drawing on four decades of research Bonanno explains what makes us resilient why we sometimes aren't and how we can better handle traumatic stress Hopeful and humane The End of Trauma overturns everything we thought we knew about how people respond to hardship **Trauma and Coping Mechanisms among Assemblies of God World Missionaries** Valerie A. Rance, 2021-12-21 Trauma from the fall of Adam and Eve forward impacts human lives in overpowering ways A review of the lives of biblical personalities and missionaries reveals shared traumatic experiences In addition to the stress of cultural adjustment missionaries often live in contexts of violence political unrest economic instability natural disasters and relational conflict The examined biblical personalities faced similar issues yet a majority coped with trauma in ways that led to well being The proposed biblical theory of well being assists missionaries to move deeper in their trust of God by utilizing the coping skills of the biblical personalities including asking God for help lifting up their praise and worship to God standing on a sense of call working with God lamenting venting to God in healthy ways embracing a theology of suffering and
