[Lost Race of the Giants](#) Patrick Chouinard, 2013-09-28 An exploration of mythological and archaeological evidence for prehistoric giants Examines the many corresponding giant mythologies throughout the world such as the Greek and Roman titans Norse frost giants and the biblical Nephilim Reveals recent finds of giant skeletons in the deserts of Saudi Arabia and India Explains how giants passed on their sophisticated culture and civilization to humanity before being wiped out in the great age of cataclysms and floods Giants are a cornerstone of the myths legends and traditions of almost every culture on Earth Stories of giants are often considered fantasies of the ancients or primitive attempts to explain natural phenomena but archaeological discoveries of 10 and 12 foot skeletons many of which have been suppressed confirm the existence of a forgotten golden age of giants before recorded history Patrick Chouinard examines the staggering number of corresponding giant mythologies throughout the world such as the Greek and Roman titans Norse frost giants the Hindu Daityas the biblical Nephilim the Celtic Formorach the Sumerian Anunnaki and the multitude of myths in which the sky or world is held aloft on the shoulders of a giant He links these stories to Atlantis as well as other legends of prehistoric civilizations lost to cataclysm and great floods whose survivors spawned the rise of ancient civilizations The author reveals how physical remains of giant size peoples have been found on almost every continent including recent finds in the deserts of Saudi Arabia Afghanistan and northern India as well as hundreds of excavations of giant mummies and skeletons across the United States corresponding directly with Native American accounts of red haired giants He also examines reports from famous explorers such as Magellan Sir Francis Drake and Desoto of their encounters with giants on the North American continent Revealing how giants represent the true earthborn race Chouinard explains how they engaged in open conflict with the extraterrestrial gods who created humanity for forced labor and how they passed their sophisticated culture and civilization on to humanity before being nearly wiped out in the great age of cataclysms **Footprints of Fallen Giants - Pathways to Extinction in North**

American History Clay Sherrod, 2016-08-26 Footprints is about an evolution revolution the non living world to the living tiny organisms of earliest Earth each striving to have enough precious time to evolve so they might survive long enough to resist the effects of a changing world And yes it is a story about Dinosaurs But the story being about evolution has an unhappy ending for the great Dinosaurs of the Cretaceous For what is surely natural reasons as well as self imposed doom by the creatures themselves they fell fate to Extinction just had many plants and animals had almost 200 million years earlier This is not just the story of Dinosaurs and their extinction all of the biological world is subject to and ultimately succumbs to demise through the processes of environment and nature Today the possibilities of extinction are greatest because of the introduction of the newest form of life on Earth humans who have the capability of altering an otherwise natural progression of this world we live on
