The Reading Mina Loy's Autobiographies Sandeep Parmar, 2013-08-08 Mina Loy is recognised today as one of the most innovative modernist poets numbering Gertrude Stein Marcel Duchamp Djuna Barnes and T S Eliot amongst her admirers Drawing on substantial new archival research this book challenges the existing critical myth of Loy as a modern

woman through an analysis of her unpublished autobiographical prose Mina Loy's *Autobiographies* explores this major twentieth century writer's ideas about the modern and how they apply to the modernist writer based on her engagement with twentieth century avant garde aesthetics and charts how Loy herself uniquely defined modernity in her essays on literature and art Sandeep Parmar here shows how ultimately Loy's autobiographies extend the modernist project by rejecting earlier impressions of avant garde futurity and newness in favour of a late modernist aesthetic one that is more pessimistic inward and interested in the fragmentary interplay between the past and present

Oxford Handbook of Modern and Contemporary American Poetry gives readers a cutting edge introduction to the kaleidoscopic world of American poetry over the last century. Offering a comprehensive approach to the debates that have defined the study of American verse, the twenty-five original essays contained herein take up a wide array of topics: the influence of jazz on the Beats and beyond; European and surrealist influences on style; poetics of the disenfranchised; religion and the national epic; antiwar and dissent poetry; the AIDS epidemic; digital innovations; transnationalism; hip hop and more. Alongside these topics, major interpretive perspectives such as Marxist, psychoanalytic, disability, queer, and ecocritical are incorporated. Throughout, the names that have shaped American poetry in the period—Ezra Pound, Wallace Stevens, Marianne Moore, Mina Loy, Sterling Brown, Hart Crane, William Carlos Williams, Posey Langston, Hughes, Allen Ginsberg, John Ashbery, Rae Armantrout, Larry Eigner, and others—serve as touchstones along the tour of the poetic landscape.

Pockets of Change Jane Stadler, Peta Mitchell, Adam Atkinson, Tricia Hopton, 2011-04-29. The twelve essays collected in *Pockets of Change* locate adaptation within a framework of two overlapping, if not simultaneous, creative processes. On the one hand, adaptation is to be understood as an acknowledged transposition of an existing source; that is, the process of adapting from. On the other hand, adaptation is also a process of purposeful shifting and evolving of creative practices in response to external factors, including but not limited to other creative works. In other words, the process of adapting to. This book explores adaptation then as an active practice of repetition and as a reactive process of development or evolution. The essays also extend beyond the production, transformation, and interpretation of texts to interrogate the values and practices at work in cultural transition and transformation during periods of social and historical change. Collectively, the papers theorize adaptation by taking on three tasks: first, to examine the conditions under which the two processes of adaptation operate; second, to give an account of the space and moment in which the processes unfold; the pockets of the title; and finally, to examine what emerges from pockets of adaptation. While adapting from and adapting to are both processes that appear to preclude innovation in the way that they acknowledge and depend on external sources, *Pockets of Change* demonstrates that adaptation is productive. It not only references prior texts, attitudes, practices, and media, but it also invites us to re-visit the past and to re-think the present in new ways, potentially giving narrative space to muted or occluded voices. This book therefore brings together an innovative and varied range of approaches to interpretations and uses of adaptation, challenging the assumption that an adaptation is simply either a re-make or the act of turning one medium into another. Adaptation, then, names not only the means by which texts are transformed, but also the space in which that transformation takes place. T. Dynamic Form Cara L. Lewis, 2020-07-15. *Dynamic Form* traces how intermedial experiments shape modernist texts from 1900 to 1950. Considering literature alongside painting, sculpture, photography, and film, Cara Lewis examines how these arts inflect narrative movement, contribute to plot events, and configure poetry and memoir. As forms and formal theories cross from one artistic realm to another and back again, modernism shows its obsession with form, and even at times becomes a formalism itself, but as Lewis

writes that form is far more dynamic than we have given it credit for Form fulfills such various functions that we cannot characterize it as a mere container for content or matter nor can we consign it to ignominy opposite historicism or political commitment As a structure or scheme that enables action form in modernism can be plastic protean or even fragile and works by Henry James Virginia Woolf Mina Loy Evelyn Waugh and Gertrude Stein demonstrate the range of form s operations Revising three major formal paradigms spatial form pure form and formlessness and recasting the history of modernist form this book proposes an understanding of form as a verbal category as a kind of doing Dynamic Form thus opens new possibilities for conversation between modernist studies and formalist studies and simultaneously promotes a capacious rethinking of the convergence between literary modernism and creative work in other media
