Lost and Found Jamey Glasnovic, 2014 For many people moving to a mountain town is the realization of a dream the final step in a pilgrimage to a relaxed lifestyle in a

rugged and beautiful setting For Jamey the long journey began when he was a teenager in the 1980s with the vague idea there might be a better life somewhere out West Eventually he fled the chaos and stress of the big city and tried to settle into an uncomplicated Rocky Mountain existence It wouldn't stay uncomplicated for long A spirited amble by bicycle and on foot inspired by the work of Bill Bryson this explores the heart of the Rocky Mountain Parks and examines the consequences of celebrating that beauty too effectively with mass tourism and over ambitious development Eschewing the convenience of motorized transportation Glasnovic earns every kilometre that passes beneath his feet and along the way he learns a thing or two about feeling profoundly connected to place an experience some would describe as being home Publisher's description

importance in the historical development of literary science fiction The wind had failed a deep calm had succeeded and everywhere as far as the eye could reach the water was smooth and glassy The yacht rose and fell at the impulse of the long ocean undulations and the creaking of the spars sounded out a lazy accompaniment to the motion of the vessel Sailing in their yacht a crew spots a copper cylinder afloat on the sunbeaten sea Hauling it aboard they open it to reveal a manuscript sealed from the elements containing the story of Adam More Shipwrecked while returning to Britain from Tasmania the sailor found himself stranded on a strange desert island near Antarctica Soon he stumbles upon a lost world of prehistoric plants and animals a land of indescribable beauty and wonder In the harsh volcanic landscape he discovers a race of humans whose values are entirely foreign to his Western frame of mind With a beautifully designed cover and professionally typeset manuscript this edition of James De Mille s *A Strange Manuscript Found in a Copper Cylinder* is a classic work of American science fiction reimagined for modern readers

San Representation Keyan Tomaselli, Michael Wessels, 2017-12-22 The San or Bushmen of southern Africa have exerted a fascination over generations of writers and scholars from novelists and anarchists to ethnologists and geneticists and also occupy a special place in the popular imagination as the First People and the contemporary remnant of spiritual and natural man The ways in which particular groups of people from southern Africa have been traditionally categorised and positioned as objects of scrutiny by a range of academic disciplines is increasingly being contested and questioned There is a growing awareness of the cultural economic and genetic entanglement of the peoples of the region This book examines how San and Khoe people are represented by others as well as by those who identify as San or Khoe The book interrogates the ways in which disciplines through their methodologies and ways of authorising knowledge not only discover or reveal knowledge but produce it in ways that involve complex and often ambiguous relationships with power structures and forms of intellectual symbolic and cultural capital One major trend that emerges is that the San and Khoe can no longer be seen as people of the past but have to be acknowledged as contemporary and socially situated individuals and communities who are increasingly contesting the representations which others have imposed on them This book was originally published as a special issue of *Critical Arts A Journal of South North Cultural and Media Studies*
