s most important monarchs Louise Dupin's Work on Women Louise Dupin, 2023 The eighteenth century text *Work on Women* by Louise Dupin also known as Madame Dupin 1706 1799 is the French Enlightenment s most in depth feminist analysis of inequality and its most neglected one Angela Hunter and Rebecca Wilkin here offer the first ever edition of selected translations of Dupin s massive project developed from manuscript drafts Hunter and Wilkin provide helpful introductions to the four sections of *Work on Women* Science History and Religion Law and Education and Mores which contextualize Dupin s arguments and explain the work s construction including the role of her secretary Jean Jacques Rousseau Dupin s central claim in *Work on Women* is that French jurists have gradually disenfranchised women through reductive interpretations of Roman law As a result modern marriage is founded on an abusive illegitimate contract that enriches one party and impoverishes the other This manifest injustice is enabled by the masculine vanity that aggrandizes men diminishes women and distorts all realms of knowledge Dupin shows how the most reputable scientists incorporate old notions of women s weakness into new understandings of the body while historians denigrate female rulers or erase them altogether Even in everyday conversation men assert their entitlement to social dominance through casual misogyny Thus although Dupin advocates for meaningful education for girls she insists that the upbringing of boys must also be reformed This volume fills an important gap in the history of feminist thought and will appeal to readers eager to hear new voices that challenge established narratives of intellectual history
