'*Magic*' Keiichiro Komatsu, 2018-10-24 Magic was the name given to the American decoding of the secret Japanese codes used in diplomatic communications before and during the Pacific War of 1941-45. This important new work presenting a Japanese perspective argues for the first time that in the final phase of the eight months of US-Japan talks leading to the attack on Pearl Harbor, serious mistranslations in Magic were a significant factor in the cumulative effect of mutual misunderstandings which grew between the two sides over a longer period. In spite of the number of historians who take the opposite point of view, the author argues that the efforts made by the participants on both sides to achieve a successful outcome and avert military conflict or at least delay the outbreak of the war until the following March 1942 might have been much closer to achieving success than generally believed. The mistranslations of Magic which led to the crisis in 1941 were influenced by misunderstanding and misperception and the persistence of stereotypes and images among the parties involved. The study of these kinds of phenomena has been an important part of the growth of the discipline of international relations since the Second World War.

Power, Protection and Magic in Thailand Craig J. Reynolds, 2019-10-22 This biographical study of an unusual southern policeman explores the relationship between religion and power in Thailand during the early twentieth century when parts of the country were remote and banditry was rife. Khun Phan, 1898-2006, known as Lion Lawman, sometimes used rather too much lethal force in carrying out his orders. He was the most famous graduate of a monastic academy in the mid south whose senior teachers imparted occult knowledge favoured by fighters on both sides of the law. Khun Phan imbibed this knowledge to confront the risks and uncertainty that lay ahead and bolster his confidence and self-reliance for his struggle with adversaries. Against the background of national events, the story is rooted in the mid south where the policeman was born and died. Based on a wide range of works in Thai language, on field trips to the region and on interviews with local and regional scholars as well as the policeman's descendants, this generously illustrated book, accompanied by short video clips, brings to life the distinctive environment of the lakes district on the Malay Peninsula.
