Fire in California's Ecosystems Jan W. van Wagtendonk, 2018-06-08 Fire in California's Ecosystems describes fire in detail both as an integral natural process in the California landscape and as a growing threat to urban and suburban developments in the state. Written by many of the foremost authorities on the subject, this comprehensive volume is an ideal authoritative reference tool and the foremost synthesis of knowledge on the science, ecology, and management of fire in California. Part One introduces the basics of fire ecology, including overviews of historical fires, vegetation, climate, weather, fire as a physical and ecological process, and fire regimes, and reviews the interactions between fire and the physical plant and animal components of the environment. Part Two explores the history and ecology of fire in each of California's nine bioregions. Part Three examines fire management in California during Native American and post-Euro American settlement, and also current issues related to fire policy, such as fuel management, watershed management, air quality, invasive plant species at risk, species, climate change, social dynamics, and the future of fire management. This edition includes critical scientific and management updates and four new chapters on fire, weather, fire regimes, climate change, and social dynamics.

Storied Land John Walton, 2003-12 John Walton never writes predictable books, and Monterey, California, is not a predictable place; the pairing is perfect. Although rooted in Monterey, this book explores how people in general construct historical narratives. *Storied Land* is as thought-provoking a discussion of public history and what it means to tell stories about the past as anything that I have read. Richard White, author of *Remembering Ahnagran: A History of Stories*. With deep research, shrewd analysis, and vivid writing, John Walton reveals how we live in a web of competing stories that connect future and present to a contested past. In recovering the particular riches of Monterey's literally storied past, Walton finds universal experiences of labor resistance, loss, and silencing. His own masterful storytelling lets us develop a fuller, more humane tie to the people of our past. Alan Taylor, author of the Pulitzer Prize-winning *William Cooper's Town: Power and Persuasion on the Frontier of the Early American Republic*. In the borderlands between archived event and public memory, John Walton has found a pathway to understanding the process whereby a community remembers, forgets, denies, affirms, or otherwise structures or restructures its understanding of itself. Excavating a region and a city important to Native American, Spanish, Mexican, and American California, *A Storied Land* makes a welcomed contribution to California studies and the larger history and sociology of place. Kevin Starr, author of *Inventing the Dream: California Through the Progressive Era*. Once again, John Walton has turned the facts about California into a compelling narrative and a profound meditation on the nature of history and collective memory. Howard Becker, author of *Art Worlds*. *Moon Pacific Coast Highway Road Trip* Ian Anderson, 2022-12-20 1700 miles of vibrant cities, coastal towns, and glittering ocean views. Embark on your epic PCH journey with *Moon Pacific Coast Highway Road Trip*. Inside you'll find Flexible Itineraries. Drive the entire three-week route or follow
