Nature Man And Society In The Twelfth Century:

Nature, Man, and Society in the Twelfth Century M-D Chenu, Jerome Taylor, Lester K. Little, 1997-01-01 The nine essays in this collection selected from *La th ologie au douzi me si cle* inquire into the historical context and origins of medieval scholasticism They are representative of Chenu s finest work If P re Chenu considers history of theology to be the central concern of this collection it is because he conceives of theology as an all encompassing science one which reflects the comprehensive unity of intellectual life as that develops within a culture Literary history and criticism cultural history philosophy biblical exegesis historiography ecclesiastical and social history the history of education all these and more are here involved in their interdependence From the Translators Note First published as *La th ologie au douzi me si cle* by J Vinn 1957 English translation published by University of Chicago Press 1968 **Nature, Man, and Society in the Twelfth**

Lindberg, Ronald L. Numbers, 2023-11-15 Since the publication in 1896 of Andrew Dickson White s classic *History of the Warfare of Science with Theology in Christendom* no comprehensive history of the subject has appeared in the English language Although many twentieth century historians have written on the relationship between Christianity and science and in the process have called into question many of White s conclusions the image of warfare lingers in the public mind To provide an up to date alternative based on the best available scholarship and written in nontechnical language the editors of this volume have assembled an international group of distinguished historians In eighteen essays prepared especially for this book these authors cover the period from the early Christian church to the twentieth century offering fresh appraisals of such encounters as the trial of Galileo the formulation of the Newtonian worldview the coming of Darwinism and the ongoing controversies over scientific creationism They explore not only the impact of religion on science but also the influence of science and religion This landmark volume promises not only to silence the persistent rumors of war between Christianity and science but also serve as the point of departure for new explorations of their relationship Scholars and general readers alike will find it provocative and readable Since the publication in 1896 of Andrew Dickson White s classic *History of the Warfare of Science with Theology in Christendom* no comprehensive history of the subject has appeared in the English language Although many twentieth century historians **The Solitary Self** Linda Georgianna, 1981 *The Ancrene Wisse* is a spiritual guide for female recluses written at the request of three anchoresses who were voluntarily enclosed for life within small cells Georgianna analyzes this complex and skillfully composed treatise and examines its detailed portrayal of the rich alternately rewarding and frustrating inner life of the solitary *Jewish Education and Society in the High Middle Ages* Ephraim Kanarfogel, 2007-06-11 Paperback edition of a favorite text on the literary

creativity and communal involvement in the production of the Tosafist corpus The Jews of northern France Germany and England known collectively as Ashkenazic Jewry have commanded the attention of scholars since the beginnings of modern Jewish historiography Over the past century historians have produced significant studies about Jewish society in medieval Ashkenaz that have revealed them as a well organized creative and steadfast community Indeed the Franco Russian Jewry withstood a variety of physical political and religious attacks in the twelfth and thirteenth centuries to produce an impressive corpus of Talmudic and halakhic compositions known collectively as Tosafot that revolutionized the study of rabbinic literature Although the literary creativity of the Tosafists has been documented and analyzed and the scope and policies of communal government in Ashkenaz have been fixed and compared no sustained attempt has been made to integrate these crucial dimensions Jewish Education and Society in the High Middle Ages considers these relationships by examining the degree of communal involvement in the educational process as well as the economic theories and communal structures that affected the process from the most elementary level to the production of the Tosafist corpus By drawing parallels and highlighting differences to pre Crusade Ashkenaz the period following the Black Death Spanish and Provençal Jewish society and general medieval society Ephraim Kanarfogel creates an insightful and compelling portrait of Ashkenazic society Available in paperback for the first time with a new preface included Jewish Education and Society in the High Middle Ages will be a welcome addition to the libraries of Jewish studies scholars and students of medieval religious literature

The Marvellous and the Monstrous in the Sculpture of Twelfth-century Europe Kirk Ambrose, 2013 Richly illustrated consideration of the meaning of the carvings of non human beings from centaurs to eagles found in ecclesiastical settings Representations of monsters and the monstrous are common in medieval art and architecture from the grotesques in the borders of illuminated manuscripts to the symbol of the green man widespread in churches and cathedrals These mysterious depictions are frequently interpreted as embodying or mitigating the fears symptomatic of a dark age This book however considers an alternative scenario in what ways did monsters in twelfth century sculpture help audiences envision perhaps even achieve various ambitions Using examples of Romanesque sculpture from across Europe with a focus on France and northern Portugal the author suggests that medieval representations of monsters could service ideals whether intellectual political religious and social even as they could simultaneously articulate fears he argues that their material presence energizes works of art in paradoxical even contradictory ways In this way Romanesque monsters resist containment within modern interpretive categories and offer testimony to the density and nuance of the medieval imagination KIRK AMBROSE is Associate Professor Chair Department of Art and Art History University of Colorado Boulder
