New Geography Of Nigeria:

A New Geography of Nigeria Nwadilibe P. Iloeje, 1972 **Landscapes and Landforms of Nigeria** Adetoye Faniran, Lawrence Kosoko Jeje, Olutoyin A. Fashae, Adeyemi O. Olusola, 2023-02-28 The book deals with the most striking landscapes and landforms of Nigeria. Attention is paid to the diversity of geomorphic features found in the country from the coast to the extreme north approached geographically at the national, regional and local scales with a view to highlight the combined influence of geological, climatic, biotic and anthropogenic influences as well as geoheritage potentials. The topics and sites described range from the mainly depositional coastal lagoons and inlets, the most prominent of which is the oil-rich Niger Delta characterized by the mangrove and rain forest, both of which have been seriously modified by human impact through the coastal lowlands and associated hill country with derived deciduous and dry forest vegetation, the very prominent Niger Benue Trough and associated features, the savanna semi-desert, covered high plains of the north and the Chad Basin, each of which features spectacular landscapes and landforms including human-made forms such as cities and cityscapes. The book provides the readers with the opportunity to explore the variety of Nigerian landscapes and landforms through informative texts illustrated with color maps and photos; it will be relevant to scientists, scholars as well as others interested in the geology, physical geography, geomorphology, landscape tourism and other geoheritage-related information about the country. **A History of West Africa** Toyin Falola, 2023-12-29 This book introduces readers to the rich and fascinating history of West Africa stretching all the way back to the stone age and right up to the modern day. Over the course of twenty-seven short and engaging chapters, the book delves into the social, cultural, economic and political history of West Africa through prehistory, revolutions, ancient empires, thriving trade networks, religious traditions and then the devastating impact of the Trans-Atlantic slave trade and subsequent colonial rule. The book reflects on the struggle for independence and investigates how politics and economics developed in the post-colonial period. By the end of the book, readers will have a detailed understanding of the fascinating and diverse range of cultures to be found in West Africa and of how the region relates to the rest of the world. Drawing on decades of teaching and research experience, this book will serve as an excellent textbook for entry-level History and African Studies courses as well as providing a perfect general introduction to anyone interested in finding out about West Africa. *The Nigerian Geographical Journal*, 1970 **International Perspectives on Teaching about Hazards and Disasters** John Lidstone, 1996 Discussing international perspectives on teaching about hazards and disasters, this volume features examples from Germany, France, South Africa, New Zealand, Hong Kong and Nigeria. **Modern Nigeria** Alex Egodotaye Asakitikpi, Aretha Oluwakemi Asakitikpi, 2024-01-25 Discover Nigeria, Africa's most populous country, in this thematic encyclopedia that covers everything from geography and economics to etiquette and pop culture. Part of Bloomsbury's Understanding Modern Nations series, this volume takes readers on a tour of contemporary Nigeria, helping them better understand the country and the many cultures, religions and ethnicities that call it home.

Chapters are organized thematically examining a variety of topics including geography history government economics religion ethnic and social groups gender education language etiquette food literature and the arts and pop culture Each chapter begins with an overview essay followed by a selection of encyclopedic entries that provide a more nuanced look at that facet of modern Nigeria The main text is supplemented with sidebars that highlight additional high interest topics A collection of appendices rounds out the volume offering short vignettes of daily life in the country a glossary of key terms statistical data and a list of state holidays Once a pawn of British colonialism today Nigeria is a sovereign nation and key player on the world stage Its vast oil resources have made it an international powerhouse and the wealthiest country on the African continent yet political unrest and corruption and ethnic and religious violence continue to threaten this prosperity Nigeria is equally rich culturally a nation where time honored traditions mix with contemporary influences Explore the diversity of modern Nigeria in this concise and accessible volume

Natural Arsenic in Groundwater J. Bundschuh,P. Bhattacharya,D. Chandrasekharam,2005-01-06 Arsenic contamination has become a global phenomenon With the development of advanced technological detection tools more geographical areas have been identified The people most affected are those in the poorer socio economic groups The research articles in this book have been contributed by scientists working in areas severely a

Africa Toyin Falola,Daniel Jean-Jacques,2015-12-14 These volumes offer a one stop resource for researching the lives customs and cultures of Africa s nations and peoples Unparalleled in its coverage of contemporary customs in all of Africa this multivolume set is perfect for both high school and public library shelves The three volume encyclopedia will provide readers with an overview of contemporary customs and life in North Africa and sub Saharan Africa through discussions of key concepts and topics that touch everyday life among the nations peoples While this encyclopedia places emphasis on the customs and cultural practices of each state history politics and economics are also addressed Because entries average 14 000 to 15 000 words each contributors are able to expound more extensively on each country than in similar encyclopedic works with shorter entries As a result readers will gain a more complete understanding of what life is like in Africa s 54 nations and territories and will be better able to draw cross cultural comparisons based on their reading

Management of Environmental Problems and Hazards in Nigeria Smart N. Uchegbu,Harold Chike,C.A. Udeh,2017-11-28 This unique collection of essays examines the environmental problems facing contemporary Nigeria The relationship between environmental degradation and such social issues as poverty and pollution growth has been impressively analyzed There is also a well researched discussion on how government and citizens can work towards achieving sustainable development with long term solutions to ecological disorders This book provides a valuable resource for academics and professionals in the general area of environmental management as well as those searching for long term solutions to Nigeria s particular ecological disorders

Urbanisation and Crime in Nigeria Adegbola Ojo,Oluwale Ojewale,2019-06-22 This book uses crime science and traditional criminological approaches to explore urban crime in the

rapidly urbanising country Nigeria as a case study for urban crime in developing nations In Africa s largest democracy rapid unmanaged growth in its cities combined with decaying public infrastructure mean that risk factors accumulate and deepen the potential for urban crime This book includes a thorough explanation of key concepts alongside an examination of the contemporary configuration dynamics dimensions drivers and potential responses to urban crime challenges The authors also discuss a range of methodological techniques and applications that can be used including spatial technologies to generate new data for analysis It brings together history theory trends patterns drivers repercussions and responses to provide a deep analysis of the challenges that confront urban dwellers Urbanisation and Crime in Nigeria offers academics researchers governments civil society organisations citizens and international partners a tool with which to engage in a serious dialogue about crime within cities based on evidence and good practices from inside and outside sub Saharan Africa

Geography, Culture and Education Rod Gerber,M. Williams,2002-10-31 The aim of this book is to inject more intercultural understanding and education into people s lives This is achieved by focusing on key aspects such as geography and culture geography and citizenship pedagogic implications and future directions for inter cultural learning understanding and education This publication demonstrates how the study of geography can assist people in different social and cultural groups to sustain their lifeworlds and improve them for future generations of citizens

Women in Igbo Life and Thought Joseph Therese Agbasiere,2015-12-22 A member of the Igbo tribe of Nigeria who became a nun and trained as an anthropologist Joseph Therese Agbasiere had a unique opportunity to transcend some of the preconceptions and subjectivities inevitable when an outsider studies a native society Her richly detailed ethnography examines kinship practices marriage customs and women s responsibilities in the house and the community establishing the tremendous influence that Igbo women wield in public affairs Igbo ideas about the universe the person and spiritual considerations are also discussed and shown to be primarily centred around women This fascinating work is a testament to the combination of personal insight and academic detachment which the author brought to her study of Igbo women before her death in 1998 It will be a valuable resource for students and scholars in anthropology African studies and women s studies

Socio-Cultural and Religious Conflicts and the Future of Nigeria Lotanna Olisaemeka,2022-12-10 With the prevailing violent conflict situation of our world perpetuated sometimes even in the name of religion humanity today faces extinction To reverse this ugly trend humanity has no choice than to build a society where every tribe and tongue can coexist in peace This work analyzed the violent conflicts from anthropological behavioral politico philosophical and theological perspectives and makes a demand on humanity to save herself through proper education and dialogue with all men and religions Lotanna Olisaemeka is a researcher in Missiology affiliated with the Philosophisch Theologische Hochschule Vallendar Germany

Green and Intelligent Technologies for Sustainable and Smart Asphalt Pavements Xueyan Liu,Kumar Anupam,Sandra Erkens,Lijun Sun,Jianming Ling,2021-12-24 Green and Intelligent Technologies for Sustainable and Smart Asphalt Pavements contains 124 papers from

14 different countries which were presented at the 5th International Symposium on Frontiers of Road and Airport Engineering IFRAE 2021 Delft the Netherlands 12-14 July 2021. The contributions focus on research in the areas of Circular Sustainable and Smart Airport and Highway Pavement and collect the state of the art and state of practice areas of long life and circular materials for sustainable cost effective smart airport and highway pavement design and construction. The main areas covered by the book include Green and sustainable pavement materials, Recycling technology, Warm cold mix asphalt materials, Functional pavement design, Self healing pavement materials, Eco efficiency pavement materials, Pavement preservation, maintenance and rehabilitation, Smart pavement materials and structures, Safety technology for smart roads, Pavement monitoring and big data analysis, Role of transportation engineering in future pavements, Green and Intelligent Technologies for Sustainable and Smart Asphalt Pavements. **Management of Inter and Intra States Boundary Conflicts in Nigeria: An Empirical Approach**, **Science, Policy and Politics of Modern Agricultural System** Mohamed Behnassi, Shabbir A. Shahid, Nazia Mintz-Habib, 2014-01-10. This book arises from a 2011 international conference entitled Climate Change Agri Food Fisheries and Ecosystems Reinventing Research Innovation and Policy Agendas for an Environmentally and Socially Balanced Growth ICCAFFE2011 organized by the North South Center for Social Sciences NRCS in collaboration with the Deutsche Gesellschaft für Internationale Zusammenarbeit GIZ GmbH Germany and the Institute for Research and Development IRD France. Coverage focuses on the agricultural sector and helps improve understanding of the relationships between agriculture and the environment and between human communities and nature so as to sustainably manage agricultural development. The contributors analyze the interdependence between sustainable agricultural development and environmental economic and social dynamics, assess the impacts of soil degradation on agricultural productivity, present ways to enhance livestock production and recommend mechanisms for managing links between agro biodiversity, climate change and livelihoods. Part I examines sustainable agriculture development and environmental economic and social dynamics addressing topics such as global climate change, agriculture and challenges including socio economic factors, adaptation, poverty reduction and water management. Part II covers the impacts of soil degradation on agricultural productivity and discusses the use of expert systems to assess and manage degraded lands, agricultural productivity, land suitability and rehabilitation. Part III focuses on livestock production enhancements such as feed resources and supplemental feeds for animals and capacity building for women in dairy management. Part IV shares the outcomes of research in agro biodiversity, climate change and livelihoods addressing topics such as co management of forests, carbon consumption models, biodiversity conservation and carbon sequestration and scarce mangrove forests. Current environmental and agro ecological research focuses on understanding the cause consequence relationships between specific

agricultural practices and land use and the responses at different levels of ecosystems This book is intended to contribute to this discussion *Nigerian Geographical Journal*, 1974 *Scientific Categorization of Aspects of Flora and Soil Attributes of A Typical Watershed* Ukpaka Chukwujekwu Gratius, 2018-02-13 The book scientific categorization of aspects of flora and soil attributes of a typical tropical watershed is primarily concerned with portraying most parts of tropical Africa exactly the way they are as far as watershed forest conservation is concerned The point that the book is out to establish is that every state governor in Nigeria ought to have at least a standard forest reserve and every University Vice Chancellor ought to establish a botanical zoological garden in his institution The aim of this research work was to characterize and identify those factors that were responsible for the degradation of the watershed The objectives of the study were to 1 Identify the species composition and diversity 2 Determine the economic relevance of the species 3 Determine the Importance values of the species 4 Determine the effects of seasons land use and relief on Importance Value Indices IVI of the species 5 Determine the effects of seasons land use and relief on selected soil properties **KANO** A.I. Tanko, 2014-01-29 The study of African language pedagogy and use in the Diaspora was initiated in the 1960s as African countries attained independence from colonial powers In the continent the enthusiasm for the use of indigenous languages and scholarship has remained relatively moderate as scholars are conflicted in their loyalty to imperial languages The attitude towards the use of African languages by African leaders has also hampered scholars efforts to create and sustain the needed visibility for African languages around the world Needless to say the study of African languages is not only critical to the study of language theories but also important in changing Africa s overwhelming reliance on European languages to communicate with each other The reliance has not only affected the politics of the continent but also its economic wellbeing An analysis of the enormous developmental challenges facing the African continent will reveal that many of the economic social political and cultural challenges have major language components It can actually be said that the challenges of development in Africa are either outright language challenges or are language based More significantly at the social level in many parts of the continent African languages are now perceived as inadequate means of communication Language Pedagogy and Language Use in Africa discusses the importance of teaching and using of African languages in the African continent and beyond and provides illustrations of both their direct and indirect use a result of historical and contemporary contacts language planning policies and pedagogical concerns The book contributes to the on going discussion on the pedagogy promotion and use of African languages both on the continent and in the Diaspora *GIS and Machine Learning for Small Area Classifications in Developing Countries* Adegbola Ojo, 2020-12-29 Since the emergence of contemporary area classifications population geography has witnessed a renaissance in the area of policy related spatial analysis Area classifications subsume geodemographic systems which often use data mining techniques and machine learning algorithms to simplify large and complex bodies of information about people and the places in which they live work and undertake other social activities Outputs developed from the grouping of

small geographical areas on the basis of multi dimensional data have proved beneficial particularly for decision making in the commercial sectors of a vast number of countries in the northern hemisphere This book argues that small area classifications offer countries in the Global South a distinct opportunity to address human population policy related challenges in novel ways using area based initiatives and evidence based methods This book exposes researchers practitioners and students to small area segmentation techniques for understanding interpreting and visualizing the configuration dynamics and correlates of development policy challenges at small spatial scales It presents strategic and operational responses to these challenges in cost effective ways Using two developing countries as case studies the book connects new transdisciplinary ways of thinking about social and spatial inequalities from a scientific perspective with GIS and Data Science This offers all stakeholders a framework for engaging in practical dialogue on development policy within urban and rural settings based on real world examples Features The first book to address the huge potential of small area segmentation for sustainable development combining explanations of concepts a range of techniques and current applications Includes case studies focused on core challenges that confront developing countries and provides thorough analytical appraisal of issues that resonate with audiences from the Global South Combines GIS and machine learning methods for studying interrelated disciplines such as Demography Urban Science Sociology Statistics Sustainable Development and Public Policy Uses a multi method approach and analytical techniques of primary and secondary data Embraces a balanced chronological and well sequenced presentation of information which is very practical for readers
