Nostalgia Del Futuro:

Art and Revolution in Latin America, 1910-1990 David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910 40 in Cuba 1959 89 and in Nicaragua 1979 90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement s artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating from each revolution s attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process **Detecting**

Detection Peter Baker, Deborah Shaller, 2012-06-14 We indulge our fascination with detection in many ways only some of which occur in the detective story In fact modern fiction regularly uses elements of a detective narrative to tell another story altogether to engage characters narrators and readers with questions of identity with examinations of moral and ethical reasoning with critiques of social and political injustices and with the metaphysics of meaning itself Detective plots cross cultural and national boundaries and occur in different ways and different genres Taken together they suggest important contemporary understandings of who and what we are how and what we aspire to become Detecting Detection gathers writing from the UK North and South America Europe and Asia to draw together instances of the detective plot in contemporary fiction It is unique not only in addressing the theme a recurring one in modern literature but in tracking the interest in detectives and detection across international borders Eranos Yearbook 71: 2012 - Beyond Master, Spaces

Documentation in Early Childhood Education offers researchers students policy makers and professionals a comprehensive and multicultural perspective on pedagogical documentation *The Hundred Languages of Children* Carolyn Edwards, Lella Gandini, George Forman, 1998-04-21 The city run early childhood program of Reggio Emilia Italy has become recognized and acclaimed as one of the best systems of education in the world Over the past forty years educators there have evolved a distinctive innovative approach that supports children s well being and fosters their intellectual development through a systematic focus on symbolic representation Young children from birth to age six are encouraged to explore their environment and express themselves through many languages or modes of expression including words movement drawing painting sculpture shadow play collage and music Leading children to surprising levels of symbolic skill and creativity the system is not private and elite but rather involves full day child care open to all including children with disabilities This new Second Edition reflects the growing interest and deepening reflection upon the Reggio approach as well as increasing sophistication in adaptation to the American context Included are many entirely new chapters and an updated list of resources along with original chapters revised and extended The book represents a dialogue between Italian educators who founded and developed the system and North Americans who have considered its implications for their own settings and issues The book is a comprehensive introduction covering history and philosophy the parent perspective curriculum and methods of teaching school and system organization the use of space and physical environments and adult professional roles including special education The final section describes implications for American policy and professional development and adaptations in United States primary preschool and child care classrooms *The Dystopian Imagination in Contemporary Spanish Literature and Film* Diana Q. Palardy, 2018-07-27 This study examines contemporary Spanish dystopian literature and films in directly related to the 2008 financial crisis from an urban cultural studies perspective It explores culturally charged landscapes that effectively convey the zeitgeist and reveal deep rooted anxieties about issues such as globalization consumerism immigration speculation precarity and political resistance particularly by Indignados Indignant Ones from the 15 M Movement The book loosely traces the trajectory of the crisis with the first part looking at texts that underscore some of the behaviors that indirectly contributed to the crisis and the remaining chapters focusing on works that directly examine the crisis and its aftermath This close reading of texts and films by Ray Loriga Elia Barcel Ion de Sosa Jos Ardillo David Llorente Eduardo Vaquerizo and Ricardo Men ndez Salm n offers insights into the creative ways that these authors and directors use spatial constructions to capture the dystopian imagination **Literary Censorship in Francisco Franco's Spain and Getulio Vargas' Brazil, 1936-1945** Gabriela de Lima Grecco, 2020-04-14 This book presents two systems of censorship and literary promotion revealing how literature can be molded to support authoritarian regimes The issue is complex in that at a descriptive level the strategies and methods new states use to control communication through the written word can be judged by how and when formal decrees were issued and how publishing media whether in the form of

publishing companies or at the individual level engaged with political overseers But equally literature was a means of resistance against an authoritarian regime not only for writers but for readers as well From the point of view of historical memory and intellectual history stories of people without history and the production of their texts through the literary underground can be constructed from subsequent testimony from books sold in secret to the writings of women in jail to books that were written but never published or distributed in any way and to myriad compelling circumstances resulting from living under fascist authority A parallel study on two fascist movements provides a unique viewpoint at literary social and political levels Comparative analysis of literary censorship literary reward allows an understanding of the balance between dictatorship official policy and what literary acts were deemed acceptable The regime need to control its population is revealed in the ways that a particular type of literature was encouraged in the engagement of propaganda promotion and in the setting up of institutions to gain international acceptance of the regime The work is an important contribution to the history of twentieth century authoritarianism and the development fascist ideas **Bambina nel tempo** Scarlet

Cuban State Yvon Grenier,2017-11-08 Culture and the Cuban State examines the politics of culture in communist Cuba It focuses on cultural policy censorship and the political participation of artists writers and academics such as Tania Bruguera Jes s D az Rafael Hern ndez Kcho Reynier Leyva Novo Leonardo Padura and Jos Toirac The cultural field is important for the reproduction of the regime in place given its pretense and ambition to be eternally revolutionary and to lead a genuine cultural revolution Cultural actors must be mobilized and handled with care given their presumed disposition to speak their mind and to cherish their autonomy This book argues that cultural actors also seek recognition by the main for a long time the only sponsor and patron of the art in Cuba the curator state The curator state is also a gatekeeper state arbitrarily and selectively opening and closing the space for public expression and for access to foreign currencies and the global market The time when everything was either mandatory or forbidden is over in Cuba The regime seems to have learned from egregious mistakes that led to a massive exodus of artists writers and academics In a country where things change so everything could stay the same the controlled opening in the cultural field playing on the actors ambition and fear illuminates a broader phenomenon the evolving rules of the political game in the longest standing dictatorship of the hemisphere *In Dialogue with Reggio Emilia* Carlina Rinaldi,2006 This book offers a collection of Rinaldi s most important articles lectures and interviews between 1994 to the present day organized around a number of themes and with a full introduction contextualizing each piece of work **Cuban Feminist Theology** Ofelia Ortega,2022-02-28 Cuban Feminist Theology
