**English in Primary Education** Summer, Theresa, Böttger, Heiner, 2023-03-27 This volume focuses on the teaching of English as a foreign language to young learners at primary school. The volume features an introduction that covers essentials of teaching English to young learners from a theoretical, empirical, and neuroscientific perspective while also discussing the notion of a principled mindset, competence development, transcultural learning, the use of materials and literature, and lesson planning. The subsequent contributions cover reading and writing, bilingual programs, the transition from primary to secondary school, storybooks, the importance of self-selected fiction, anti-bias education, ways of encouraging young learners to speak, and professional advice for primary English language educators based on a qualitative analysis of interviews. Based on an international TEFL lecture series, researchers, teacher educators, and practising teachers from Germany, Switzerland, and the United States share their insights into these central issues and offer theoretical concepts for the professional development of pre-service primary school English teachers. Practical ideas and examples included in this volume aim to make theoretical constructs accessible and relatable for future teachers of English. The afterword features a look ahead by critically examining future challenges of primary school educators and highlighting 1. the great importance of an early start with English as a foreign language and 2. the need for developing national educational standards. This volume provides a research-based and practice-oriented foundation for pre-service English teachers wishing to expand their knowledge and gain an insight into recent developments in foreign language learning theories and concepts. Although mostly aimed at primary school educators, particularly the introductory chapter will be equally relevant for university students or teachers focusing on vocational and secondary school teaching so that they develop an understanding of specific features of primary English language education and as concerns secondary school teachers can contribute to a smooth transition in the fifth grade.

**Great Books for Babies and Toddlers** Kathleen Odean, 2008-12-18 The ideal time to begin sharing books with children is during babyhood, even with children as young as six weeks. Starting Out Right, National Research Council. All parents hope to give their children the best possible start in life. Many of them know it's a good idea to read to their children at a very young age, not with the goal of teaching their kids to read but with the joy of having special time together looking at pictures and playing with words. Carefully chosen books that introduce children to the pleasures of language, simple story structure, and wonderful artwork are the foundation for a future love of books. Great Books for Babies and Toddlers is the first book of its kind, a guide to the best age-appropriate children's books available. Compiled by Kathleen Odean, former Chair of the Newbery Award Committee, Great Books for Babies and Toddlers provides lively annotations for more than five hundred books, divided into two helpful categories: Nursery Rhymes, Fingerplays, and Songs, and Picture Story Books for the Very Young. With story selections ranging from such classics of children's literature as Goodnight Moon and Where's Spot to excellent new books like How Does a Dinosaur Say Good Night and Buzz, Great Books for Babies and Toddlers will be more than a

cherished guide for parents it will also be a child's first step in the lifelong adventure of reading **Storytimes for Two-Year-Olds** Judy Nichols, 2007 Provides fifty storytime programs for two year olds including ideas and suggestions for storytime content and encouragement to serve this age group **100 Best Books**, 2001 *Quill & Quire*, 1999
