The Nuremberg Trials: International Criminal Law Since 1945 Herbert R. Reginbogen, Christoph Safferling, 2011-11-30 60 years after the trials of the main German war criminals the articles in this book attempt to assess the Nuremberg Trials from a historical and legal point of view and to illustrate connections contradictions and consequences In view of constantly reoccurring reports of mass crimes from all over the world we have only reached the halfway point in the quest for an effective system of international criminal justice With the legacy of Nuremberg in mind this volume is a contribution to the search for answers to questions of how the law can be applied effectively and those committing crimes against humanity be brought to justice for their actions

History Made Conscious Geoff Eley, 2023-08-22 How History has changed in the half century since the 1960s During the last fifty years the writing of history underwent two massive transformations First powered by Marxism and other materialist sociologies the great social history wave instated the value of social explanation Then responding to new theoretical debates the cultural turn upset many of those freshly earned certainties Each challenge was profoundly informed by politics from issues of class gender and race to those of identity empire and the postcolonial The resulting controversies brought historians radically changed possibilities expanding subject matters unfamiliar approaches greater openness to theory and other disciplines a new place in the public culture History Made Conscious offers snapshots of a discipline continuously rethinking its charge How might we understand the social and the cultural together How do we collaborate most fruitfully across disciplines If we take theory seriously how does that change what historians do How should we think differently about politics

**Audiences of Nazism** Ulrike Weckel, 2023-10-13 Through its focus on audiences and their reception of media in Nazi Germany Audiences of Nazism inverts the typical top down perspective employed in studies that concentrate on the regime's regulation of media and propaganda It thereby sheds new light on the complex character of the period's media their uses and the scope for audience interpretation Contributors investigate how consumers either appropriated or ignored certain messages of Nazi propaganda and how some even participated in its production The authors ground their studies on novel historical sources including private diaries and letters photographs and films and concert programs which demonstrate amongst other things how audiences interpreted and responded to regulated news Nazi Party rallies and the regime's denunciation of modern works of art as degenerate
