The Trojan Horse Cloud Steven Comas, 2007-06 Historians have suggested many reasons for America's defeat in Vietnam The premise of this book is that disunity on the home front was the most significant and influential factor leading to our downfall in Vietnam The disunity in America was incited and fueled by the antiwar movement This movement collectively consisting of the antiwar factions the media academia and congressional doves gave rise to the second front which became a major weapon in Hanoi's arsenal This second front was ever present in the minds of North Vietnam's leaders It played a major role in Hanoi's strategy and was valued as the equivalent of several army divisions The disunity fostered by the antiwar movement gave our enemies confidence and encouraged them to hold out in the face of battlefield defeats *Divided We Fall* reveals the full impact of the second front how it influenced the conduct of the war and most importantly its effect on the outcome of the war It is a testament on how the most powerful nation in the world can go down in defeat when its people are divided The most important lesson of the Vietnam War is that disunity on the home front leads to defeat abroad The divisions we have seen over the war in Iraq are a strong indication that we have not yet learned this lesson The thesis of this book was recently validated by a well known American statesman Henry Kissinger former Secretary of State National Security Adviser to presidents Nixon and Ford and US negotiator at the Paris peace talks to end the war in Vietnam During the Lou Dobbs Tonight show on August 25 2005 he made this statement of historical significance In Vietnam we defeated ourselves with domestic divisions

Faces in a Cloud George E. Atwood, Robert D. Stolorow, 2001 In this new edition of their now classic work George Atwood and Robert Stolorow explore the ways in which a theory of personality is influenced and colored by the subjective world of the theorist Using psychobiographical analyses of Sigmund Freud Carl Jung Wilhelm Reich and Otto Rank as illustrations the authors show how the central constructs of personality theories universalize their creators' personal solutions to the nuclear crises and dilemmas of their own life histories Illuminating the subjective origins of a personality theory does not invalidate the theory according to Atwood and Stolorow but rather contributes to establishing the scope of the theory as well as its applicability to particular clinical situations The first edition of *Faces in a Cloud* published in 1979 was the seminal work out of which emerged the now influential theory of intersubjectivity a framework that calls for a radical revision of all aspects of psychoanalytic thought This revised edition incorporates significant new material into the psychobiographical analyses and has been completely updated and rewritten to reflect the development of the authors' viewpoint The terminology used throughout the book to describe personal worlds of experience has been updated and refined in consonance with this contemporary theoretical perspective The final chapter summarizes key aspects of this new

perspective and offers reflections on the subjective origins of intersubjectivity theory itself *A Nurse at the War* Grace McDougall, 1917 *Learning in the Making* Margaret Carr, Carolyn Jones, Wendy Lee, Anne B.
