Committee on Claims, 1941 **Report** United States. Congress Senate, 1940 Soil Conservation , 1979 Soil and Fertilizer Concepts and Practices , 2015-01-14 Agriculture builds upon the integration of crops and the environment with which its yield depends strongly on a healthy soil foundation With that in mind the knowledge of the soil and fertilizer is crucial to maintaining an environment with optimal nutrients water and oxygen for crop production Soil is one of human s precious resources the protection and nurturing of our soil is thus an integral part of sustainable development Effective soil management is considered not only a technology but also an art In practice to make use the full potential of the land the management strategies need to take account of the differences and characteristics of the soil plant and climate that are unique to each geographical location Such an approach is increasingly more important nowadays because of the increasing loss of cultivable land and need of high quality agricultural products *Pamphlets on Forestry in Wisconsin* , 1910
