Child Nurturing in the 1980s Robert Boger,2013-11-11 Child Nurturing in the 1980s follows upon a series of lectures presented at Michigan State

University in conjunction with the university's celebration of the International Year of the Child. The chapters, although far from an inclusive set, outline childrearing perspectives, issues, and concerns relevant to the 80s and beyond. The authors have used different styles ranging from empirical review to essay. The book is designed to provide those concerned with the nurturing of children in the United States with perceptions of what is and what could be. The initial chapter by Edward Zigler sets the stage for comments related to specific areas and modalities of child nurturing concerns for the decade. Some of the chapter authors are more futuristic than others in their perspective, but all have focused upon issues judged to be focal for those concerned with the nurturing of children in this culture during this period of our history. The book is not addressed specifically to those who would set policy or those who would implement it. Rather, it is hoped that it can be read with benefit by a wide range of individuals including, but not limited to, parents, faculty members, child care workers, and child agency personnel. The editors wish to extend our appreciation to many individuals who made this effort possible. Funding of the IYC program was provided through the International Year of the Child Committee under the most able leadership of Andrew D. Hunt.

Exploring and Engaging Spirituality for Today's Children La Verne Tolbert, 2014-05-19. Exploring and Engaging Spirituality for Today's Children: A Holistic Approach answers questions about the most effective ways to help children, pre-teens, and teens develop spiritually. This collection of research gleaned from presentations during the Fourth Triennial Children's Spirituality Conference at Concordia University in 2012 is divided into four major sections: 1. theological and historical foundations; 2. engaging parents and congregations; 3. engaging methodologies; and 4. exploring children at risk: child pornography, social justice, intercultural diversity, and abstinence education. Researchers acknowledge that the home is the foundation for Christian nurture. In Exploring and Engaging Spirituality for Today's Children, both scholars and ministry leaders come together with parents to promote a holistic environment where children are encouraged to love, respect, and obey God. From birth to high school, children's voices resonate throughout these studies as they are invited to share their reflections and experiences. Exploring and Engaging Spirituality for Today's Children is a lively, easy-to-read collection that reflects a broad range of faith traditions and is ideal for all those who are committed to the spiritual development of children.

Nurturing An Endangered Generation Rosemary Thompson, 2013-08-21. The statistics are pretty grim: the young people of the US face an ever-increasing tide of poverty, alcohol and drug abuse, violence, suicide, and family dysfunction. However, society's response has been slow. Too many young people do not receive consistent, positive, and realistic validation of themselves from the adults on whom they depend. The problems facing today's youth demonstrate the critical need for responsible adults to establish close, helping relationships with our young people. This means not only helping them achieve academically but also teaching them skills such as

assertiveness decision making conflict resolution impulse control anger management empathy sensitivity and tolerance of difference This book goes beyond the stilted rhetoric on the problems of youth and the dilemma for society by outlining specific treatment intervention and prevention strategies that address the full spectrum of dysfunctional behavior It introduces structured intervention strategies for school and community collaboration with an emphasis on remediation and treatment Educators and helping professionals will find counseling strategies and psychoeducational techniques that focus on primary prevention These primary prevention strategies are supported by an understanding of critical social emotional and cognitive skills Each chapter introduces the latest demographic data and the factors that make children and adolescents vulnerable to self defeating or self destructive behaviors and then counteracts these factors with structured intervention and prevention
