

STROKE

A stroke aka. cerebrovascular attack is the loss of brain function due to a disturbance in the blood supply to the brain.

❗ Stroke is the fourth leading cause of death in the United States. ❗

On average, one American dies from stroke every 4 minutes.

Stroke is a leading cause of serious long-term disability.

In 2009, 34% of people hospitalized for stroke were younger than 65 years.

Stroke kills almost 130,000 Americans each year (1 out of every 19 deaths)

Ischemic stroke

— blood supply to part of the brain is decreased, leading to dysfunction of the brain tissue in that area. There are four reasons why this might happen:

1. Thrombosis (obstruction of a blood vessel by a blood clot forming locally)
2. Embolism (obstruction due to an embolus from elsewhere in the body, see below)
3. Systemic hypoperfusion (general decrease in blood supply, e.g., in shock)
4. Venous thrombosis.

❗ About 87% of all strokes are ischemic strokes.

Hemorrhagic stroke

Intracranial hemorrhage is the accumulation of blood anywhere within the skull vault. A distinction is made between intra-axial hemorrhage (blood inside the brain) and extra-axial hemorrhage (blood inside the skull but outside the brain).

Risk Reduction Tips:

- *Eating a healthy diet.
- *Maintaining a healthy weight.
- *Getting enough exercise.
- *Not smoking.
- *Limiting alcohol use.
- *Check Cholesterol
- *Control Blood Pressure
- *Manage Diabetes
- *Manage Heart Disease
- *Take Your Medicine
- *Talk with Your Health Care Team

Major Risk Factors:

- *high blood pressure
- *smoking
- *high cholesterol

Martin, Vinood B. Patel, Victor R Preedy, 2023-06-06 Diet and Nutrition in Neurological Disorders offers readers a comprehensive reference on the effect of dietary regimes in a wide variety of neurological diseases With coverage of different types of diets including Mediterranean or DASH this broad coverage allows readers to learn about diets and their affect on specific disorders which may well be relevant to other conditions This includes diseases such as Alzheimer s Parkinson s ALS MS and severe neurological conditions such as brain injury stroke headache and migraine This volume provides a platform for research on new dietary regimes and on future investigations of diet and nutrition Summarizes diet and nutrition research for a variety of neurological conditions Contains chapter abstracts key facts dictionary and summary Covers diet in Alzheimer s Parkinson s ALS MS and more Includes conditions like migraine headache stroke and brain injury Discusses the Mediterranean diet in the context of brain health **Nutrition and Brain** John D. Fernstrom, Ricardo Uauy, Pedro Arroyo, 2001-01-01 This volume provides a survey of the links between nutrition and the brain It examines many of the mechanisms by which diet and individual nutrients are known to modify brain development biochemistry and function and evaluates current practices in the use of the diet for the prevention and treatment of disorders affecting brain function It also highlights the need to consider issues related to brain function in the development and evolution of national policies for treating nutritional deficiencies and excesses Written by leading investigators and clinicians this publication will help practitioners clinical investigators and scientists appreciate the broad opportunities awaiting investigation and ultimately clinical applications in this dynamic and expanding area of investigation **Lifestyle Nutrition** James M. Rippe, 2024-12-30 What individuals consume in their diet has profound implications on their health Despite overwhelming evidence that plant based diets yield multiple health benefits physicians often feel ill prepared to discuss nutrition with their patients Authored

by renowned cardiologist Dr James M Rippe Lifestyle Nutrition Eating for Good Health by Lowering the Risk of Chronic Diseases provides physicians with an evidence based introduction to nutrition science with a practical emphasis on how to apply this information to improve the health of their patients and enhance their own lives From nutrition and atherosclerosis to erectile dysfunction and chronic kidney disease to osteoporosis this comprehensive guide covers a wide range of conditions influenced by diet It delves into specialized areas such as nutrition for physically active people to the elderly ensuring relevance for diverse patient populations The reader will find detailed analysis of the Dietary Guidelines for Americans 2020 2025 and their applications and strategies for adopting healthy plant based diets such as Mediterranean DASH and vegan Each chapter begins with key points and concludes with clinical applications making it valuable to clinicians As part of the esteemed Lifestyle Medicine Series this is an indispensable resource for any healthcare provider committed to enhancing patient care through informed dietary practices Krause and Mahan's Food and the Nutrition Care Process E-Book Janice L Raymond, Kelly Morrow, 2020-05-03 NEW Food Nutrient Delivery Planning the Diet with Cultural Competency chapter provides international nutrition guidelines and resources to assist you with multicultural meal planning NEW Clinical Nutritional Genomics chapter features an author from the NIH s Human Genome Project and introduces you to the latest research about CRISPR and epigenetics NEW MNT for Neurologic Disorders chapter features two new authors including a speech therapist and displays IDDSI guidelines and an appendix for dysphagia diets to help you carefully and consistently address the nutritional needs of these patients NEW Clinical Water Electrolytes and Acid Base Balance and Clinical Biochemical Physical and Functional Assessment chapters are updated with the most relevant and evidence based complementary and integrative approaches to expand your expertise in these clinical nutritional areas NEW MNT for Adverse Reactions to Food Food Allergies and Intolerance chapter features completely revised guidelines and a new pathophysiology algorithm to ensure you are confident in your knowledge of how to prevent emergencies and what to do when emergencies do happen NEW Coverage of intermittent fasting health at every size and health disparities focuses on the latest nutrition trends to ensure you are well versed in these topics NEW The Mediterranean Diet Choline and Biotin appendices display at a glance information to help you find quickly supplemental information NEW Directions boxes and Focus On boxes as well as useful websites resources and key terms at the end of each chapter help you find information quickly and easily **Modern Nutrition in Health and Disease** Katherine L. Tucker, Christopher P. Duggan, Gordon L. Jensen, Karen E. Peterson, 2024-11-27 Introducing the twelfth edition of Modern Nutrition in Health and Disease a seminal text in the field of nutrition Originally published in 1950 this revised print and digital edition now in full color serves as both a comprehensive learning resource for undergraduate and graduate nutrition majors and an authoritative reference for nutrition practitioners Authored and edited by distinguished experts worldwide this twelfth edition features new chapters on interprofessional practice global food systems precision nutrition and more With a focus on physiological nutrition principles

and fully referenced with the latest scientific research this edition showcases major advancements in understanding nutrition's role in disease prevention. It continues the tradition of providing in-depth information on various aspects of nutrition, making it an invaluable tool for undergraduates, graduate nutrition majors, and the medical community. **Krause's Food & the Nutrition Care Process - E-Book**

L. Kathleen Mahan, 2016-05-17. A trusted classic for over 50 years, Krause's Food and the Nutrition Care Process 14th Edition presents the most cutting-edge and up-to-date dietetics content available in this ever-changing field. Nicknamed the nutrition bible, students and practitioners alike turn to its current, comprehensive content, engaging pedagogy, and design and logical presentation of information. This new edition includes the 2015 Dietary Guidelines for Americans, more visuals, and highlighted Clinical Case Studies, Clinical Insights, and Clinical Applications boxes that help translate scientific knowledge into practical patient care. Written by nearly 50 nationally recognized writers, researchers, and practitioners, it covers nutrition assessment and intervention, the nutritional needs of individuals in different stages of the life cycle, nutrition for health and fitness, and medical nutrition therapy. Authored by clinical specialists ensuring in-depth coverage with many practical and evidence-based recommendations, Sample Nutrition Diagnosis boxes present a problem, its etiology, and its signs and symptoms before concluding with a sample nutrition diagnosis, providing both students and practitioners with real-life scenarios they may encounter in practice. UNIQUE Pathophysiology algorithms present the cause, pathophysiology, and medical nutrition management for a variety of disorders and conditions to help you provide optimal nutritional care. Chapters on nutrition in each of the life cycle phases include Nutrition in Pregnancy and Lactation, Nutrition in Infancy, Nutrition in Childhood, Nutrition in Adolescence, Nutrition in the Adult Years, and Nutrition in Aging. Focus On boxes provide thought-provoking information on key concepts for well-rounded study and further discussion within the classroom. New Directions boxes point you toward additional research on emerging areas in nutrition therapy. Clinical Insight boxes expand on clinical information, highlight areas that may go unnoticed, and contain clinical resources for students and practitioners. Chapters on the nutritional care of the low birth weight and premature infant feature information on how to support their health, growth, and development. Useful websites direct you to online resources that relate to chapter topics. Key terms are defined at the beginning of each chapter and bolded within the text where they are discussed in more detail.

Stroke Recovery and Rehabilitation, 2nd Edition Richard D. Zorowitz, 2014-09-18.
