**Tracking SDG targets on health and nutrition: Challenges and opportunities for streamlining surveys** Shalini Rudra,Kurian, Oommen C,2017-06-02 The achievement of global sustainable development goals SDGs depends largely on India s progress given the country s massive size and its moderate historical success in key health and nutrition outcomes over the last several years This further increases the relevance and need for effective monitoring of India s performance through timely and disaggregated data which ensures systematic assessments and course correction As India will be depending mainly on surveys to supply target related data in the medium run this paper classifies existing health and nutrition indicators from the draft National Indicator Framework NIF in terms of data availability By highlighting the gaps in available data the authors make specific recommendations to streamline existing surveys to align them with the requirements of an NIF for the SDGs The authors review the draft NIF released by the Ministry of Statistics and Programme Implementation MoSPI and propose a revised one as part of this exercise

**Food and Nutrition Security in Southern African Cities** Bruce Frayne,Jonathan Crush,Cameron McCordic,2017-12-22 Urban population growth is extremely rapid across Africa and this book places urban food and nutrition security firmly on the development and policy agenda It shows that current efforts to address food poverty in Africa that focus entirely on small scale farmers to the exclusion of broader socio economic and infrastructural approaches are misplaced and will remain largely ineffective in ameliorating food and nutrition insecurity for the majority of Africans Using original data from the African Food Security Urban Network s AFSUN extensive database it is demonstrated that the

primary food security challenge for urban households is access to food Already linked into global food systems and value chains Africa s supply of food is not necessarily in jeopardy Rather the widespread poverty and informal urban fabric that characterizes Africa s emerging cities impinge directly on households capacity to access food that is readily available Through the analysis of empirical data collected from 6 500 households in eleven cities in nine countries in Southern Africa the authors identify the complexity of factors and dynamics that create the circumstances of widespread food and nutrition insecurity under which urban citizens live They also provide useful policy approaches to address these conditions that currently thwart the latent development potential of Africa s expanding urban population *Men Like Us* Daniel Wolfe,Gay Men's Health Crisis, Inc,2000 For nearly two decades GMHC has provided vital support education and health information to gay men Now with *Men Like Us* their guidance and the insights of hundreds of gay men across America will help readers everywhere Practical down to earth and accessible this authoritative health resource covers such topics as body basics exercise and diet relationships and intimacy sexual pleasure medical care prevention and healing mental health and therapy spirituality and community and much much more Filled with expert advice from leading doctors lawyers therapists and fitness instructors to ordinary gay men whose stories provide important voices of experience *Men Like Us* opens a window onto the ways gay men in all their diversity care for themselves and each other Biomedical Index to PHS-supported Research: pt.
