Equity in a Nutshell J. Brian Morcom, 1956 **Cases and Materials on Equity and Trusts**, 2018 An

authoritative and comprehensive text on the area of Equity and Trusts offering scholarly commentary on the relevant principles and carefully selected extracts from leading judgments and legislation *Equity and Trusts* Alastair Hudson, 2005

Equity and Trusts has quickly established itself as a market leader due to its clarity, insight and accessibility in what is perhaps the most complex of legal areas. Hudson's scholarly account of the subject makes this text sufficiently authoritative for trust practitioners but also provides a comprehensible introduction for a student audience. As in previous editions, the traditional doctrines are analysed in the context of current issues and the book's progressive approach intersperses discussion of the core ideas with clear examples. This fourth edition has been extensively rewritten and includes new chapters on understanding the trust, certainty in the creation of express trusts, the rights of beneficiaries and the beneficiary principle, formalities in the creation of express trusts, constructive trusts, breach of trust, miscellaneous equitable remedies. Individual essays on the nature of express trusts, the law on fiduciaries, family law, human rights law and equity draw together the main principles while examining related questions of restitution and social justice. This book is essential reading for all those seeking a modern approach to this crucial area of law.
