

Client Politics

Ag Pesticides

Issue: control of use and runoff of pesticides; farmers have mostly resisted policy entrepreneurs, with DDT an exception

EPA efforts to evaluate safety of all pesticides

- Given mandate by Congress in 1972

Pesticides Politics

Peter Hupe

Pesticides Politics:

Pesticides And Politics Christopher J. Bosso, 2010-11-23 Winner of the 1988 Policy Studies Organization Book Award

Among the more dramatic changes brought by World War II was the widespread introduction of new synthetic chemical pesticides products welcomed as technological answers to a whole host of agricultural problems The dangers posed by these products were often ignored in the rush to get them onto the market Federal policy primarily reflected the interests of those promoting the new technologies The risks associated with pesticides as yet ill understood continued to be played down during the 1950s despite their sudden emergence as a public problem as a result of health scares and fish and wildlife deaths following massive pest eradication campaigns These events together with the publication of Rachel Carson's *Silent Spring* spawned the environmental movement of the 1960s Dramatic changes came in the early 1970s as environmental values permeated the institutions and dynamics of American politics Such changes produced new priorities and in part a redirection in federal policy on chemical pesticides The National Environmental Policy Act the creation of the Environmental Protection Agency congressional reforms and broad popular support opened opportunities for those seeking to alter pesticides policy But by the mid 1980s after more than a decade of conflict that policy is in limbo caught between powerful environmental economic and political forces How did this happen *Pesticides and Politics* traces the long battle over control of pesticides through an analytical framework that is at the same time historical comparative and theoretical Christopher J Bosso's account analyzes the responses to this complex problem by commercial interests government the media and the public and shows how the issue evolved over forty years of technological and political change Bosso's research leads to a number of insights about the U S structure of governance It shows how the system itself determines who gains access to decision making and who is excluded and how conflicts are redefined as the range of interests attached to them grows Bosso concludes that for fundamental institutional reasons as well as political ones federal pesticides policy lies stalled and impotent in the mid 1980s Relying heavily on government documents the sizable literature on environmental politics and interviews with relevant policy actors *Pesticides and Politics* will enlighten students of the public policy process and also be useful in courses in policy making and policy analysis

The Global Politics of Pesticides Peter Hough, 2014-04-08 The *Global Politics of Pesticides* explores the varied and often conflicting interests involved in the formulation of international policies on chemical pesticide manufacture and use in each of the main areas of environmental pollution trade development public health food security biotechnology and industrial safety and explains why some aspects of pesticide use are subject to strict international guidelines whilst others are not The book breaks new ground in objectively examining the competing viewpoints of food producers and other pesticide users the chemical industry health officials traders environmental consumer pressure groups and the public It also considers how international regulation can occur in spite of the fundamental differences of opinion and seemingly opposing interests held by the key actors

Pesticides in World Agriculture Robert

Boardman,1986-06-02 **Pesticide Policy and Politics in the European Union** Emanuela Bozzini,2017-03-23 This book explores the regulation of pesticides in the European Union in order to reveal the complex controversial and contested nature of an assessment system proudly declared by the EU to be the strictest in the world The current regulatory framework is based on Regulation 1107/2009 which substantially reformed the previous system The analysis describes the new criteria and procedures for the authorization of active substances to be used in the production of pesticides traces the lengthy policy formulation process and identifies factors that made policy change possible Further the book illustrates the current controversies that characterise the implementation of Regulation 1107/2009 the ban of pesticides harmful to pollinators the renewal of the authorization of glyphosate and the definition of criteria for the assessment of endocrine disruption The author provides information on policy outcomes and highlights persisting shortcomings in the enforcement of EU regulation This book will appeal to students and scholars from a variety of disciplines including political science political sociology and public policy How I Avoided Dialysis: and you can too! Mercedes Hawkins,2012-04-26 A look into home remedies and alternative health to cure chronic illness enough to prevent and reverse dialysis Australian national bibliography ,1961

Development Betrayed Richard B Norgaard,2006-05-18 Modernity promised control over nature through science material abundance through technology and effective government through rational social organization Instead of leading to this promised land it has brought us to the brink of environmental and cultural disaster Why has there been this gap between modernity's aspirations and its achievements *Development Betrayed* offers a powerful answer to this question Development with its unshakeable commitment to the idea of progress is rooted in modernism and has been betrayed by each of its major tenets Attempts to control nature have led to the brink of environmental catastrophe Western technologies have proved inappropriate for the needs of the South and governments are unable to respond effectively to the crises that have resulted Offering a thorough and lively critique of the ideas behind development Richard Norgaard also offers an alternative co-evolutionary paradigm in which development is portrayed as a co-evolution between cultural and ecological systems Rather than a future with all peoples merging to one best way of knowing and doing things he envisions a future of a patchwork quilt of cultures with real possibilities for harmony Monthly Catalog of United States Government Publications ,2004

Comparative Studies of Policy Agendas Frank R. Baumgartner,Christoffer Green-Pedersen,Bryan D. Jones,2013-09-13 Previously published as a special issue of the *Journal of European Public Policy* this book draws on the insights of the existing literature on agenda setting and policy changes to explore the dynamics of attention allocation and its consequences Attention is a crucial variable in understanding modern politics Shifts in attention have dramatic consequences for both politics and policy decisions This volume includes case studies of nine different political systems including the US Canada several European systems and the EU itself It asks the following questions Which are the dynamics of agenda setting in the EU Which role do political parties play in attention allocation What are the cross-national differences in attention to health

care What role does science and expertise play in attention allocation What are the effects of political institutions

Comparative Studies of Policy Agendas will be of interest to students and scholars of policy analysis and public policy The Oxford Handbook of Dutch Politics ,2024-10-06 The Oxford Handbook of Dutch Politics provides a comprehensive longitudinal overview of the state of the art of academic research on the Dutch political system its origins and historical development its key institutions main fault lines pivotal processes and key public policy dynamics In each of the chapters researchers take stock of what if anything has changed over time how scholars have conceptualized and studied these dynamics and what key factors can account for the developmental patterns found to be at play Notwithstanding its considerable degree of constitutional and institutional stability Dutch politics has seen considerable step changes and occasional upheavals across the last half century Influenced by long term demographic socio economic and cultural shifts the old social cleavages have waned New social identities and dividing lines such as ethnicity education place and gender have influenced Dutch citizens political attitudes and behaviours including their voting patterns The media landscape and the information environment have been altered by new technologies that politicians and citizens alike have to navigate This has produced changes in such pivotal components as the party system coalition formation and management process and executive legislative relations and many others Moreover public policy paradigms and the political coalitions that sustained them have ascended and lost traction in most of the eleven policy domains discussed in the Handbook In all this volume provides unique and indispensable insights into stability and change in a political system that once gained notoriety as an archetype of a consensual or consociational democracy Research Handbook on Street-Level Bureaucracy Peter Hupe,2019 When the objectives of public policy programmes have been formulated and decided upon implementation seems just a matter of following instructions However it is underway to the realization of those objectives that public policies get their final substance and form Crucial is what happens in and around the encounter between public officials and individual citizens at the street level of government bureaucracy This Research Handbook addresses the state of the art while providing a systematic exploration of the theoretical and methodological issues apparent in the study of street level bureaucracy and how to deal with them Monthly Catalogue, United States Public Documents ,1993-12 International Environmental Governance Set Peter Hough,2009 The Global Politics of Pesticides explores the varied and often conflicting interests involved in the formulation of international policies on chemical pesticide manufacture and use in each of the main areas of environmental pollution trade development public health food security biotechnology and industrial safety and explains why some aspects of pesticide use are subject to strict international guidelines whilst others are not The book breaks new ground in objectively examining the competing viewpoints of food producers and other pesticide users the chemical industry health officials traders environmental consumer pressure groups and the public It also considers how international regulation can occur in spite of the fundamental differences of opinion and seemingly opposing interests held by the key actors

Expertisation and Democracy in Europe Magdalena Góra, Cathrine Holst, Marta Warat, 2017-11-27 Expertisation and Democracy in Europe provides a much needed account of the role and re organisation of expertise and expert knowledge in Europe and the European Union in a broad range of policy spheres contributing to the debate triggered by the recent crises It brings novel perspectives to debates on technocracy and our understanding of the relations between knowledge experts and democracy The book explores and assesses new and old linkages between knowledge expertise and democracy and expands and deepens the current debates by addressing questions such as What is the role of expertise in Europe How is knowledge of different kinds embedded in and decisive for democratic practice in contemporary democracies How are we to assess recent transformations of the expert citizens and government civil society relationships from the perspective of democracy and which paths are viable in the years to come Finally the book engages with and gives flesh to the notion of expertisation not only as a broad political and societal diagnosis but also as a multidimensional and deeply contested process that enfold in concrete practices and institutional settings This text will be of key interest to scholars and students of European studies European and European Union politics democracy public policy international relations sociology gender studies and media studies *Politics and Public Policies in California* John H. Culver, 2001 **Nuclear Politics in America** Robert J. Duffy, 1997 Duffy s work traces nuclear politics from the creation of a powerful subgovernment through the public lobby reforms of the late 1960s and early 1970s and the deregulatory backlash of the Reagan years He demonstrates that while policies did change in the 1970s they did not change as much as other accounts have suggested and that the industry continued to receive considerable federal support The book is particularly significant for extending the discussion of nuclear policy through the Bush and Clinton years including the controversy over waste disposal new licensing procedures enacted in the 1992 Amendments to the Atomic Energy Act and the effects of deregulation of electric utilities Amazon com viewed August 24 2020 **Library of Congress Subject Headings** Library of Congress. Office for Subject Cataloging Policy, 1991 **Library of Congress Subject Headings** Library of Congress, 1991 **The Institutions of the European Union** Dermot Hodson, Uwe Puetter, John Peterson, Sabine Saurugger, 2022 In a time of disruption and rapid change the European Union s institutions have endured In *The Institutions of the European Union* a team of expert contributors and editors explain everything you need to know about the functions powers and composition of these important organizations as they contend with the changing dynamics of European integration It is the most comprehensive guide to understanding how the institutions of the EU provide political direction govern policies and integrate contrasting interests within the EU New to this Edition Fully updated to cover the institutional changes prompted by Brexit Covid 19 and many other issues facing the EU A new introductory chapter presents the idea of EU institutional politics and explores its different dimensions Explores the urgent challenges of creating more diverse and inclusive EU institutions New discussion questions help you reflect critically and engage with the content to take your learning further Professor Uwe Puetter of Europa Universit t Flensburg and Sabine

Saurugger of Science Po Grenoble UGA join Dermot Hodson as editors Book jacket Bringing Peace Home Karen Warren, Duane L. Cady, 1996 This collection of works is ambitious well documented thoroughly though not turgidly referenced and comprehensively indexed It is deeply disturbing and deeply engaging Australian Feminist Studies Contributors discuss the subtle and complex relationships between various notions of feminism and peace Feminist peace issues are explored along a wide spectrum of personal and political issues from the personal violations of rape incest and domestic abuse to the violence of racism sexism economic exploitation war and genocide
