the law and literature humanities culture film visual and aesthetics on which it is based this book demonstrates how the techniques and practices of cultural legal studies can be used to metamorphose law and the legalities that underpin its popular imaginary By drawing on three different modes of cultural legal studies storytelling technology and jurisprudence the collection showcases the intersectional practices of cultural legal studies and law in its popular cultural mode The contributors to the collection deploy differentiated modes of cultural legal studies practice adopting diverse philosophical disciplinary methodological and theoretical approaches and subjects of examination The collection draws on this mix of diversity and homogeneity to thread together its overarching theme that we must take seriously an interrogation of law as culture and in its cultural form That is it does not ask how a text represents law but rather how the representational nature of both law and culture intersect so that the juridical become visible in various cultural manifestations In short it asks how law's popular cultures actively effect the metamorphosis of law
