Language of Horsemanship Dick Pieper, Cheryl Cody, 2013-12-17 Dick Pieper's *The Language of Horses* will help any rider use the knowledge of equine characteristics to initiate communication and create successful interaction in a way the horse can understand For example an understanding of equine body language enables the human to alter what might seem an aggressive approach to the horse By changing his approach the person can create a sense of security rather than fear in his horse Likewise the horse's quick flight or fight reflexes designed for self protection can be channeled into fast responses to the rider's cues Consistency and repetition are key to the rider developing the horse's differentiation skills with minimal stress The resulting and growing predictability experienced by both helps create a calm horse comfortable with his rider
