Evans, 2022-11-08 A comprehensive two volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today s biblical and theological scholarship Jesus life and teaching is important to every question we ask about what we believe and why we believe it And yet there has never been common agreement about his identity intentions or teachings even among first century historians and scholars Throughout history different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage creating a labyrinth of conflicting ideas From the evolution of orthodoxy and quests before Albert Schweitzer s famous Old Quest to today s ongoing questions about criteria methods and sources *A History of the Quests for the Historical Jesus* not only chronicles the developments but lays the groundwork for the way forward The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical sociological and theological underpinnings Instead of seeking a bedrock of facts Brown stresses the role of hermeneutics in formulating questions and seeking answers Colin Brown was almost finished with the manuscript at the time of his passing in 2019 Brought to its final form by Craig A Evans this book promises to become the definitive history and assessment of the quests for the historical Jesus Volume One

Denney (1856-1917) James McMillan Gordon, 2006-06-01 James Denney is now best known though in increasingly restricted circles for his book *The Death of Christ* considered for over a century a lucid and standard exposition of objective atonement understood in substitutionary terms. However, there is breadth and depth to Denney's thought, a richness and passion in his theological work, an attractive integrity and spiritual immediacy in his writing that resists any reducing of his legacy to that of being an apologist for one aspect of Christian doctrine. By exploring his early years growing up in Greenock, Scotland, following his intellectual development through university and college years in Glasgow, and considering the impact of a long pastoral ministry in Broughty Ferry, Dundee, a context is created for studying the mind, personality, and faith that informed his mature theological writing. For twenty years from 1897-1917 he taught biblical theology and exegesis in his denominational College in Glasgow, developing his theology through articulation and then exploring and expounding the gospel of Christ as first and originally expressed in the apostolic experience and testimony embedded in the New Testament documents. The theological work of Denney, taken as a whole, was both intellectually engaged and ecclesially focused, as he sought to construct a secure basis for biblical faith. His theology was offered in the service of the church, his learning a self-conscious discipleship of the intellect. This is the major study of Denney to use the large corpus of Denney's unpublished theological papers and sermons held in New College Library in the University of Edinburgh. These, together with Denney's published work and wider biographical research, form the basis of this study, an intellectual and contextual biography of one of Scotland's most attractive and forceful theological personalities.

Representing Religion Tim Murphy, 2014-12-05 If religion is continually in a state of flux, how can the study of religion critically examine contemporary religious beliefs and values? *Representing Religion* critically examines this crisis of representation. The volume traces the history of religious studies, critiquing the concept that experience is central to understanding religion. The views of influential semioticians and philosophers, notably Nietzsche, Saussure, Foucault, Barthes, and Bakhtin, are used to construct a new methodology for the critical study of religion. *Representing Religion* will be of interest to students and scholars of semiotics as well as theory and method in religious studies.

Protestant Theology and the Making of the Modern German University Thomas Albert Howard, 2006-02-23 In shaping the modern academy and in setting the agenda of modern Christian theology, few institutions have been as influential as the German universities of the nineteenth century. This book examines the rise of the modern German university from the standpoint of the Protestant theological faculty, focusing especially on the University of Berlin, 1810 Prussia's flagship university in the nineteenth century. In contradistinction to historians of modern higher education who often overlook theology, and to theologians who are frequently inattentive to the social and institutional contexts of religious thought, Thomas Albert Howard argues that modern university development and the trajectory of modern Protestant theology in Germany should be understood as interrelated phenomena.
