Longman, 2000 *Manual of Specialised Lexicography* Henning Bergenholtz, Sven Tarp, 1995-07-14 From 1990 1994 the Danish Research Council for the Humanities granted a research project entitled translation of LSP texts which was initially split up into five part projects one of which has been concerned with LSP lexicography The Manual of Specialised Lexicography is one of the results of the research undertaken by this project The primary purpose of the Manual is to contribute towards an improved basis for practical specialised lexicography which has so far had but a small share in the explosive development that has taken place in general language lexicography since the early 1970s One implication of this is that only to a limited extent has it been possible to build upon existing findings The Manual thus has the twofold aim of offering guidance and direction to authors of specialised dictionaries as well as contributing towards the further development of lexicographical theories The Use of English in Institutional and Business Settings Giuliana Garzone, Cornelia Ilie, 2007

This book explores the intercultural problems related to the widespread use of English in written and oral communication by native and non native speakers in institutional and business settings Each chapter looks at a different set of issues emerging from the confrontation of cultures across national institutional and organizational discourse communities taking an intercultural or cross cultural approach The focus is on workplace settings both in institutional and business contexts e.g. politics public services media international corporate communication advertising business negotiations etc The theme is all

the more interesting today not only in consideration of the sheer magnitude of this phenomenon and its capillary spread but above all on account of the pervasive penetration of English into professional and workplace contexts as a communication language also for local internal communication The complexity of intercultural communication as an object of research is reflected in the variety of the topics explored the range of settings investigated and the diversity of methodological approaches taken *Tackling NHS Jargon* Sarah Carr,2018-08-08 Used properly jargon can be effective but used incorrectly it can damage communications waste time and money and harm public patient and staff relations This book will enable and encourage readers to use language that the intended audience will understand It provides practical advice based on the author s experience of producing National Health Service documents and contains explanations of common NHS jargon with alternatives Plain speaking and writing techniques are included and there are numerous examples from real NHS management communications This is an invaluable book for Health Service managers clinicians with management responsibilities and all those responsible for communicating information about healthcare COMPREHENSIVE APPROACH TO ACCOUNTING FOR SCHOOLS AND TECHNICAL STUDIES Dr. N. VISWANADHAM,Mr. OTTO MATERN MUBA,Mr. ERICK SYLVESTER NGWEGA,2019-08-19 It is very easy to control and manage business when a business is very small Hence the entire double entry account is kept in one book called a ledger As the business grows and expand it would be impossible just to use one book as the large number of pages needed for a lot of transactions could be very difficult to handle To solve this problem of getting difficulties in handling the bookkeeper should use more books Through this all similar types of transactions are handling together and have a book for each type Remember not to mix together transactions which are different from one another Therefore the books which are used to record all similar transactions on a first time before posting to the ledger account are called books of original entry **Business English Strategies** ,1999
