Lorca's Experimental Theater Andrew A. Anderson, 2024-11-25 Critical and historical discussions of the life and work of Federico García Lorca Spain's foremost poet and playwright of the twentieth century often obscure the author's more avant garde dramatic works In *Lorca's Experimental Theater* Andrew A. Anderson focuses on four of Lorca's most challenging plays *Amor de don Perlimplín con Belisa en su jardín* *El público* *As que pasen cinco años* and *El sueño de la vida* previously known as *Comedia sin título* and on the surrounding context in which they came to be written and in only one case performed during his lifetime While none of Lorca's plays can be considered conventional these four works stand out in his corpus for challenging theatrical conventions most forcefully both thematically and technically With discussions of stagecraft artistic modernism and the historical avant garde Lorca's *Experimental Theater* provides detailed interpretive readings of the four plays surveys their textual and performative history and examines the most important contemporary influences on Lorca's creation of these expressive innovative works

Old Stories, New Readings Miriam López-Rodríguez, Alfonso Ceballos Muñoz, Inmaculada Pineda-Hernández, 2015-02-27 Whether imaginary or based on real events stories are at the core of any culture Regardless of their length their rhetoric strategies or their style humans tell stories to each other to express their innermost fears and needs to establish a point within an argument or to engage their listeners in a fabricated composition Stories can also serve other purposes such as being used for entertainment for education or for the preservation of certain cultural traits Storytelling is at the heart of human interaction and as such can foster a dialogic narrative between the person creating the story and their audience In literature this dialogue has been traditionally associated with narrative in general and with the novel in particular However other genres also make use of storytelling including drama This volume explores the ways in which American theatre from all eras deals with this how stories are told onstage what kinds of stories are recorded in dramatic texts and how previously neglected realities have gained attention through the American playwrights telling or retelling of an event or action The stories unfolded in American drama follow recent narratology theories particularly in the sense that there is a greater preference for those so called small stories over big stories Despite the increase in the production of this type of texts and the growing interest in them in the field of narratology small stories are literary episodes that have been granted less critical attention particularly in the analysis of drama As such this volume fills a void in the study of the stories presented on the American stage
