Catholic Literature and Film Nancy Enright, 2016-11-21 Catholic Literature and Film Incarnational Love and Suffering is meant to be considered as a work of literary criticism not film adaptation studies In it the author explores six literary works dealing with Catholic themes and the film versions of these works The discussion of the films is at the service of analyzing the texts Underlying all the discussions is an incarnational sacramental view of the texts which links to my interpretation of the film versions of them Catholic and actually any Christian interpretation of literature or film or any other art form is rooted in an iconic and sacramental understanding of imagery as a means of conveying the sacred Catholic spirituality lends itself to this sort of approach as it is deeply rooted in the ability to see sacred things through physical means A key sub theme is romantic love in connection with salvation which Charles Williams one of the Inklings the group of British writers including J R R Tolkien and C S Lewis who met and discussed literature and theology calls the theology of romantic love as well as the sub themes of redemptive suffering and grace My interest in the book is not an analysis of cinematography per se but on the films as vehicles for religious ideas What makes this approach unique is that it doesn't deal with only faith and film as Peter Frazer does very well in his book *Images of the Passion The Sacramental Mode in Film* for example it also goes beyond the realm of strict literary criticism in its tackling of how religiously oriented works of literature are affected by the transformation into film

Die Landschaft interpretieren: Interdisziplinäre Ansätze Werner Kreisel, Peter H. Marsden, Tobias Reeh, 2021 There is no generally valid recognised definition of what landscape actually is On the basis of its relatedness to the environment to aesthetics territory society politics economics geography planning ethnology and philosophy the concept of landscape is considered to be a composite notion shaped by a thousand years of Central European ideas and of literary and art history In other words the very term landscape is ambiguous and it is used in different ways both in the scholarly world and everyday speech The aim of this volume is to present various possible approaches to the phenomenon of landscape Far from laying any claim to be exhaustive or comprehensive we have simply tried to do justice to the overarching interdisciplinary approach of the Zentrum für Landschaftsinterpretation und Tourismus ZELT Centre for Landscape Interpretation and Tourism by singling out and addressing individual instances of this fascinating multifaceted phenomenon

Fans, Blockbusterisation, and the Transformation of Cinematic Desire Carolyn Michelle, Charles H. Davis, Ann L. Hardy, Craig Hight, 2017-11-24 This book explores the evolution of audience receptions of Peter Jackson's Hobbit trilogy 2012-14 as an exemplar of the contemporary blockbuster event film franchise. Drawing on findings from a unique cross-cultural and longitudinal study, the authors argue that processes and imperatives associated with Hollywood blockbusterisation shaped the trilogy's conditions of production, format, content, and visual aesthetic in ways that left many viewers progressively disenchanted. The chapters address public and private prefigurations of the Hobbit trilogy, modes of reception, new cinematic technologies, and the Hobbit hyperreality paradox: gender representations, adaptation, and the transformation of cinematic desire, and the role of social and cultural location in shaping audience engagement and response. This book will appeal to audience researchers, Q-methodologists, scholars, and students in film and media studies, Tolkien scholars, and Hobbit fans and critics alike.

Mediated Nostalgia Ryan Lizardi, 2014-11-06 Considering the current rash of film remakes, vintage video game downloads, and box sets of bygone television shows, media today is obsessed with nostalgia. Instead of presenting a past that functions as an adaptive mirror with which we can compare our contemporary situation, the past is instead presented as an individualized version that transfixes us as uncritical citizens of our own culture. *Mediated Nostalgia: Individual Memory and Contemporary Mass Media* argues that the cultural implication of a cross-media eternal return to nostalgia is an increasing reliance on defining who we are as people and societies by what media we consumed as children. The unblinking eye toward the past knows no progress or, at the very least, does not employ the past to compare and adaptively engage with the present or future. Examining film, literature, television, and video games, Ryan Lizardi tackles the idea of why that strong sense of nostalgia is such a popular tactic for the media industry and why it is problematic.
