Lost Boundaries:

Lost Boundaries Ernest Tucker, 2006-09-12 Sibyl Robinson hears the evening news that Quebec's Lagado government has called a referendum it hopes will separate the French province from Canada. Upset by the announcement, the unilingual anglophone leaves her flat on Cumae street and walks her dog Trio through Montreal's Little Burgundy district down to the Lachine Canal. On the way home she discovers the slain body of a black youth in a school yard near her flat. Packets of cocaine are found in the boy's pockets and police assume the killing to be drug related. Sibyl's concern over the murder of one of her people leads her to a friend of the slain youth and the two set out to find the killer. Their unusual investigation leads to officer Jean Luc Turcotte as the culprit. He has been stealing confiscated cocaine from a police lock up and soliciting black neighborhood youths to deliver the drugs to his selected customers. Detective lieutenant Marc Kelly is assigned to the case and Jean Luc is eventually charged with the youth's murder. Sibyl, who becomes a chief witness for the defense, breaks with her son Mark when he decides to defend the white officer. A rather bizarre trial ensues and Jean Luc is acquitted. Crossing the Line

Gayle Wald, 2000-07-24 Examines constructions of racial identity through the exploration of passing narratives including *Black Like Me* and forties jazz musician Mezz Mezzrow's memoir *Really the Blues*. **Medicine's Moving**

Pictures Leslie J. Reagan, Nancy Tomes, Paula A. Treichler, 2007 Original essays by leading media scholars and historians of medicine that explore the rich history of health-related films. This groundbreaking book argues that health and medical media, with their unique goals and production values, constitute a rich cultural and historical archive and deserve greater scholarly attention. Original essays by leading media scholars and historians of medicine demonstrate that Americans throughout the twentieth century have learned about health, disease, medicine, and the human body from movies. Heroic doctors and patients fighting dread diseases have thrilled and moved audiences everywhere amid changing media formats. Medicine's moving pictures continue to educate, entertain, and help us understand the body's journey through life. Perennially popular health and medical media are also complex texts reflecting many interests and constituencies, including notably the U.S. medical profession, which has often sought if not always successfully to influence content, circulation, and meaning. *Medicine's Moving Pictures* makes clear that health and medical media representations are more than illustrations; they show their power to shape health perceptions, practices, and policies and identify their social, cultural, and historical contexts. Freedom of the Screen Laura Wittern-Keller,2008-01-11 At the turn of the twentieth century the proliferation of movies attracted not only the attention of audiences across America but also the apprehensive eyes of government officials and special interest groups concerned about the messages disseminated by the silver screen Between 1907 and 1926 seven states New York Pennsylvania Ohio Virginia Kansas Maryland and Massachusetts and more than one hundred cities authorized censors to suppress all images and messages considered inappropriate for American audiences Movie studios hoping to avoid problems with state censors worrying that censorship might be extended to the federal level and facing increased pressure from religious groups also jumped into the censoring business restraining content through the adoption of the self censoring Production Code also known as the Hays code But some industry outsiders independent distributors who believed that movies deserved the free speech protections of the First Amendment brought legal challenges to censorship at the state and local levels Freedom of the Screen chronicles both the evolution of judicial attitudes toward film restriction and the plight of the individuals who fought for the right to deliver provocative and relevant movies to American audiences The path to cinematic freedom was marked with both achievements and roadblocks from the establishment of the Production Code Administration which effectively eradicated political films after 1934 to the landmark cases over films such as The Miracle 1948 La ronde 1950 and Lady Chatterley s Lover 1955 that paved the way for increased freedom of expression As the fight against censorship progressed case by case through state courts and the U S Supreme Court legal authorities and the public responded growing increasingly sympathetic toward artistic freedom Because a small unorganized group of independent film distributors and exhibitors in mid twentieth century America fought back against what they believed was the unconstitutional prior restraint of motion pictures film after 1965 was able to follow a new path maturing into an artistic medium for the communication of ideas however controversial Government censors would no longer control the content of America s movie screens Laura Wittern Keller s use of previously unexplored archival material and interviews with key figures earned her the researcher of the year award from the New York State Board of Regents and the New York State

Romance and Rights Alex Lubin,2009-09-18 Romance and Rights The Politics of Interracial Intimacy 1945 1954 studies the meaning of interracial romance love and sex in the ten years after World War II How was interracial romance treated in popular culture by civil rights leaders African American soldiers and white segregationists Previous studies focus on the period beginning in 1967 when the Supreme Court overturned the last state anti miscegenation law Loving v Virginia Lubin s study however suggests that we cannot fully understand contemporary debates about hybridity or mixed race identity without first comprehending how WWII changed the terrain The book focuses on the years immediately after the war when ideologies of race gender and sexuality were being reformulated and solidified in both the academy and the public Lubin shows that interracial romance particularly between blacks and whites was a testing ground for both the general American

public and the American government The government wanted interracial relationships to be treated primarily as private affairs to keep attention off contradictions between its outward aura of cultural freedom and the realities of Jim Crow politics and anti miscegenation laws Activists however wanted interracial intimacy treated as a public act one that could be used symbolically to promote equal rights and expanded opportunities These contradictory impulses helped shape our current perceptions about interracial romances and their broader significance in American culture Romance and Rights ends in 1954 the year of the Brown v Board of Education decision before the civil rights movement became well organized By closely examining postwar popular culture African American literature NAACP manuscripts miscegenation laws and segregationist protest letters among other resources the author analyzes postwar attitudes towards interracial romance showing how complex and often contradictory those attitudes could be

Film Censorship in America Jeremy Geltzer, 2017-11-28 Since the first films played in nickelodeons controversial movies have been cut or banned across the United States Far from Hollywood regional productions such as Oscar Micheaux s provocative race films and Nell Shipman s wildlife adventures were censored by men like Major M L C Funkhouser the terror of Chicago s cinemas and Myrtelle Snell the Alabama administrator who made the slogan Banned in Birmingham famous Censorship continues today with Utah s case against Deadpool 2016 pending in federal court and Robert Rodriguez s Machete Kills 2013 versus the Texas Film Commission This authoritative state by state account covers the history of film censorship and the battle for free speech in America Hollywood be Thy Name Judith Weisenfeld, 2007 This is a ground breaking book The text is remarkable in its use of MPAA files and studio archives Weisenfeld uncovers all sorts of side stories

that enrich the larger narrative The writing is clear and concise and Weisenfeld makes important theoretical interpretations without indulging in difficult jargon She incorporates both film theory and race theory in graceful non obtrusive ways that deepen understanding This is an outstanding work Colleen McDannell author of *Picturing Faith Photography and the Great Depression* *Militarization and Democracy in West Germany's Border Police, 1951-2005* David M. Livingstone, 2024 A social history of West Germany's Bundesgrenzschutz BGS Federal Border Police that complicates the telling of the country's history as a straightforward success story The 2020 murder of George Floyd by Minneapolis police officers shows that police violence is still a problem in Western democracies Floyd's murder prompted some critics to hail the German police as a model of democratic policing that should be emulated After 1945 Germany's police forces had supposedly shed the militarization and authoritarian impulses still prevalent in other nations' forces These uncritical appraisals however deserve closer analysis This book is a social history of West Germany's Bundesgrenzschutz BGS a federal border guard established in 1951 that became reunified Germany's first national police force It argues that the BGS revived authoritarian traditions of militarized policing and kept them alive long into the postwar era even though the country was supposedly consigning these problematic legacies to its past The BGS was staffed and led by Wehrmacht and SS veterans until the late 1970s and while West Germany was democratizing BGS commanders were still planning to fight wars and were teaching its officers street fighting tactics While the end outcome was positive the study contributes to the growing body of recent research that complicates the writing of the Federal Republic's history as a success story Dealing explicitly with post fascist West Germany's struggle to establish a democratic police force the book enters a conversation with studies concerned with democratization security and Germany's effort to overcome its Nazi past DAVID M LIVINGSTONE holds a PhD in History from the University of California San Diego He is retired as Chief of Police of Simi Valley California and is an adjunct professor at California Lutheran University [Flesh and Blood](#) Susan E. Lederer, 2008-04-24 Organ transplantation is one of the most dramatic interventions in modern medicine Since the 1950s thousands of people have lived with new hearts kidneys lungs corneas and other organs and tissues transplanted into their bodies From the beginning though there was simply a problem surgeons often encountered shortages of people willing and able to give their organs and tissues To overcome this problem they often brokered financial arrangements Yet an ethic of gift exchange coexisted with the commodification of the body The same duality characterized the field of blood transfusion which was essential to the development of modern surgery This book will be the first to bring together the histories of blood transfusion and organ transplantation It will show how these two fields redrew the lines between self and non self the living and the dead and humans and animals Drawing on newspapers magazines legal cases films and the papers and correspondence of physicians and surgeons Lederer will challenge the assumptions of some bioethicists and policymakers that popular fears about organ transplantation necessarily reflect timeless human concerns and preoccupations with the body She will show how notions of the body intact in parts living and

dead are shaped by the particular culture in which they are embedded
