Traveling with Philosophes Ken Ewell, 2006-08 Join a fellow traveler on a walkabout through Paris and London and then travel with him across England Scotland and Wales After those walkabouts accompany him as he journeys across America and follows the equator to Australia Finally wander with him along the corridors of modern and postmodern philosophy and as he travels with old and new Philosophes who all voiced an opinion as regards this travel book It is a book that people won't buy won't read and won't praise Mark Twain After reading only a few pages I gave up the study of philosophy forever Voltaire I cannot look upon the book without shedding tears Bertrand Russell If I could only make a travel book like that I would be perfectly willing to die even anxious John Dewey I have seen a great many travel books in my time but none that this one reminds me of Will Durant This travel book is one third fabrication one third prevarication and one third barefaced lies However the rest of the book is the unadulterated truth Dr Morris A Nussbaum

Bodies of Evidence Jane Draycott, Emma-Jayne Graham, 2017-07-05 Dedicating objects to the divine was a central component of both Greek and Roman religion Some of the most conspicuous offerings were shaped like parts of the internal or external human body so called anatomical votives These archaeological artefacts capture the modern imagination recalling vividly the physical and fragile bodies of the past whilst posing interpretative challenges in the present This volume scrutinises this distinctive dedicatory phenomenon bringing together for the first time a range of methodologically diverse approaches which challenge traditional assumptions and simple categorisations The chapters presented here ask new questions about what constitutes an anatomical votive how they were used and manipulated in cultural cultic and curative contexts and the complex role of anatomical votives in negotiations between humans and gods the body and its disparate parts divine and medical healing ancient assemblages and modern collections and collectors In seeking to re contextualise and re conceptualise anatomical votives this volume uniquely juxtaposes the medical with the religious the social with the conceptual the idea of the body in fragments with the body whole and the museum with the sanctuary crossing the boundaries between studies of ancient religion medicine the body and the reception of antiquity

Paris 2008 Rachel Klein, Caroline Trefler, 2007 Articles on the history and culture of the French capital augment information on tourist attractions hotels restaurants and shopping facilities throughout the city Great Moments in Greek Archaeology Panos Valavanēs, 2007 This beautifully illustrated book offers a wide ranging overview of the greatest archaeological sites and discoveries from ancient Greece The contributors a veritable who's who of the most venerable names in Greek archaeology include both those who have excavated at the sites in question and scholars who have spent a lifetime studying the monuments about which they write Presented here are the legendary sites of ancient Greece including the Athenian Acropolis Olympia Delphi Schliemann's Mycenae and the Athenian Agora the most iconic sculptures in the Greek world such as the Aphrodite of Melos and the Nike of Samothrace and several fascinating chapters on underwater archaeology discussing the Kyrenia and Uluburun shipwrecks and the astonishing bronze masterpieces raised from the sea This is the first book to bring together the archaeological legacy of ancient Greece in a concise and accessible way while still preserving the excitement of discovery *Roman Artists, Patrons, and Public Consumption* Brenda Longfellow, Ellen Perry, 2018-01-10 In recent decades the study of Roman art has shifted focus dramatically from issues of connoisseurship typology and chronology to analyses of objects within their contemporary contexts and local environments Scholars challenge the notion formerly taken for granted that extant historical texts the writings of Vitruvius for example can directly inform the study of architectural remains Roman era statues paintings and mosaics are no longer dismissed as perfunctory replicas of lost Greek or Hellenistic originals they are worthy of study in their own right Further the scope of what constitutes Roman art has expanded to include the vast spectrum of objects used in civic religious funerary and domestic contexts and from communities across the Roman Empire The work gathered in *Roman Artists Patrons and Public Consumption* displays the breadth and depth of scholarship in the field made possible by these fundamental changes The first five essays approach

individual objects and artistic tropes as well as their cultural contexts and functions from fresh and dynamic angles The latter essays focus on case studies in Pompeii demonstrating how close visual analysis firmly rooted in local and temporal contexts not only strengthens understanding of ancient interactions with monuments but also sparks a reconsideration of long held assumptions reinforced by earlier scholarship These rigorous essays reflect and honor the groundbreaking scholarship of Elaine K Gazda In addition to volume editors Brenda Longfellow and Ellen E Perry contributors include Bettina Bergmann Elise Friedland Barbara Kellum Diana Y Ng Jessica Powers Melanie Grunow Sobocinski Lea M Stirling Molly Swetnam Burland Elizabeth Wolfram Thill and Jennifer Trimble
