Craig,2002 Craig begins by attributing the early introduction of the Recherche to the intimate friendship between Proust and the pianist composer Reynaldo Halm who was born in Caracas He then shows in chapter 1 how literary

critics of the principal newspapers and literary magazines of such countries as Venezuela Argentina and Chile examined this French text which we know today as one of the fundamental works of modernism Shortly thereafter interest in the Recherche spread to Cuba Mexico Uruguay and Colombia Eventually it would be read in all parts of the New World Over the years Spanish Americans have continued to write about the Recherche and have published several noteworthy books on it which are included in the comprehensive bibliography which serves as an appendix BOOK JACKET **Marcel Proust, biografia** George D. Painter,1972 **The Two Worlds of Marcel Proust** Harold March,2016-11-11 In the years since Proust's death there have been many specialized studies of his extraordinary novel and his character and viewpoint have been violently attacked and warmly defended Here at last written with sound scholarship but addressed to the general reader is a full frank and unbiased account of the man and his work and a clear statement of what he has to say to the world today Chronological biography is interpolated with detailed analysis of Proust's work in reference to his intellectual and emotional development Stressed as important contributing factors in his development aside from the influences of the decadent 80s and 90s are the subordination of intellect to intuition the discovery of involuntary memory the search for affection and the enduring friendship the torments of jealousy in a sensitive mind the burden of homosexuality The author shows how the dreamy sensitive affectionate boy who loved sunlight and the out of doors was transformed into the legendary recluse of the cork lined chamber a strange somnambulist creature with luminous eyes waxy pallor and dank matted hair who shivering and drugged had himself driven in a tightly dosed limousine for a look through glass at his still loved fruit trees in bloom It was asthma that accomplished the transformation asthma and the strange paralysis of the will when he was called upon to make a decision But in his enforced seclusion Proust's profoundly analytical mind extraordinary intuitions and astounding memory explored the fruits of experience and produced his epoch making work Out of his physical and emotional sufferings he evolved his philosophy of the two worlds one the world of time where necessity illusion suffering change decay and death are the law the other the world of eternity where there is freedom beauty and peace Normal experience is in the world of time but glimpses of the other world may be given in moments of contemplation or through accidents of involuntary memory It is the function of art to develop these insights and to use them for the illumination of life in the world of time Marcel Proust Edmund White,John Mahoney,1985-04 In White's superb biography Proust is shown in all his fascinating eccentricity as the yearning lonely boy the dazzling wit darling of Parisian salons the seeker of fame and the unhappy homosexual grappling with his sexual identity Copyright Libri GmbH All rights reserved
