Memory Work Mary E. Triece, 2024-10-23 In the early twentieth century white controlled magazines and Black magazines told very different stories about the dynamics of race sex and power in the United States Memory Work White Ignorance and Black Resistance in Popular Magazines 1900 1910 examines how popular magazines employed rhetorical strategies to remember forget and frame America's racist past White controlled magazines such as the Independent Outlook Arena and McClure's carried stories of southern nostalgia union reconciliation and white purity Relying on willful ignorance to misremember past experiences of suffering these texts severed violent histories from present day policies and often simply remained silent Meanwhile in Black magazines such as the Colored American Magazine and the Voice of the Negro women writers leveraged countermemory Bringing Black women's accomplishments into focus these writers inverted popular white narratives that erased and obscured Black women's experiences including those of sexual violence Mary E Triece traces how white and Black magazines often in dialogue with one another differently engaged memory work to either reinforce or upend white supremacy during a period of both Black advancement and white backlash Further the book suggests lines of connection between the construction of public memory in the past to those taking place today across an array of media platforms Popular debates whether appearing in early 1900s magazines or on twenty first century social media sites shape a culture's collective knowledge of what counts as true important and worthy of attention

Memory Work Miguel de Baca, 2015-12-08 Memory Work demonstrates the evolution of the pioneering minimalist sculptor Anne Truitt An artist determined to make her way through a new aesthetic in the 1960s Truitt was tireless in her pursuit of a strong cultural voice At the heart of her practice was the key theme of memory which enabled her not only to express personal experience but also to address how perception was changing for a contemporary viewership She gravitated toward the idea that an object in one's focus could unleash a powerful return to the past through memory which in turn brings a fresh even critical attention to the present moment In addition to the artist's own popular published writings which detail the unique challenges facing female artists Memory Work draws on unpublished manuscripts private recordings and never before seen working drawings to validate Truitt's original ideas about the link between perception and mnemonic reference in contemporary art De Baca offers an insider's view of the artist's unstinting efforts to realize her artistic vision as well as the cultural political and historical resonances her oeuvre has for us today
